The Largest and Finest in the World!

# IMPORTANT

Since issuing our last catalogue we have made some very great improvements in all departments, more particularly in our Horse Boot and Harness department. We are now using in all our best grade of boots the very finest of California stock, are making our boots lighter weight, closer fitting and finer finished than any heretofore made by us or any other house in the world. In presenting this catalogue (which, by the way, is the most complete ever published) we desire to call your attention to the fact that we carry such an endless variety of goods, that it would be almost an impossibility to list every article that we have in stock, and should you fail to find listed herein the article you desire, kindly write us, giving a description, or let us know for what purpose the article is intended, and we can in all probability furnish you with it, as our aim is to carry in stock every article of merit that is used on, or connected with the horse. Our goods, which have been on the market, and been tested by many of the best horsemen in the country, for the past twenty-seven years, are second to none, and you will find our prices to be lower than you can buy the same quality of goods from any other house in the world.

All of our English, French and German goods are imported by us direct, saving the middle man's profit. In our workshops we employ none but the best of skilled labor, and use nothing but the very best material that money can procure. This, together with our long and practical experience and extensive dealing, enables us to furnish our customers with the most desirable goods, of a superior quality, and at reasonable prices

We carry the largest and most complete stock of any house in the world, and are General Agents for the following articles: (Genuine Imported) Newmarket Racing, Exercise and Ladies and Gentlemen's Riding Saddles; Whitman Saddle Co.'s Goods, Wellman's New York Riding School Saddles, Graham's, Lindsey's, Frazier Road, Speeding and Breaking Carts and Sulkies, Upington's Kentucky Breaking Carts, the new Sulkeyette or close Hitch Track Cart, S. Toomey & Co.'s Sulkies, Chas. S. Caffrey & Co.'s Sulkies, McMurray & Fisher Sulkies, and all the leading patented novelties in this line. Soliciting correspondence and a continuance of the very liberal patronage which has been bestowed upon us in the past, for which we return to our many friends and patrons many thanks, we remain,

Yours truly,

G. S. ELLIS & SON.

# TERMS AND INSTRUCTIONS FOR ORDERING.

Our terms are strictly cash.

We will ship goods to any part of America *subject to approval*, and if goods are not satisfactory they may be returned, *and we will refund the money*, providing they are not used, and the purchaser first agrees to pay all express charges, so that we are put to no expense in case the goods do not suit him.

## HOW TO ORDER.

In ordering goods please write your name, Post-Office address, also County and State in plain, bold letters, so that we will make no mistake in shipping; also, state whether you wish goods shipped by freight or express—if freight, what railroad you want them shipped over; if express, which express company you prefer.

We do not send goods by mail, only on special order, and then at *purchaser's risk.*

All export orders must be accompanied with money order or draft, otherwise will positively not be filled. If

## HARNESS OR HORSE CLOTHING

Of special size is wanted, state height and weight of animal. In ordering

## HORSE BOOTS

Be particular to state which size is wanted, as we make five different sizes, which we designate as follows:

S. S. Extremely small, for weanlings up to yearlings.
S. Small Size, for yearlings and two year olds.
M. Medium Size, for medium-size horses.
L. Large Size, for large horses.
L. L. Extra Large for extremely large horses.

Where no size is given, we invariably ship Medium. All orders will be filled by us with a desire to please the party ordering; and where goods are not particularly specified, but left partly or fully to our discretion, we will always do the best in our judgment to satisfy the purchaser, but would at all times prefer the buyer to state plainly what is wanted.

N. B.—During the past twenty-seven years, a large amount of goods have been ordered of us by parties in other cities to be shipped to them by express, C. O. D., which were never called for at their express office, consequently returned to us with express charges both ways for us to pay. To secure us against any such loss in the future, we request that at least $1.00 to $5.00 accompany each order, which amount will be deducted from the bill. Reliable parties can not object to this reasonable request.

# Horse Boot Department.

We take pleasure in announcing to our friends and patrons that we have just completed an entirely new line of Horse Boots, which are far superior to any other make in the world, being the lightest weight, closest fitting and finest finished boot ever made. This is a very broad assertion, but we have the boots to back it, and don't you forget it. Send us your order, and if not exactly as we represent them, return to us, and we will refund the money.

Read what Mr. Geo. Ketcham has to say in regard to our new boots; also, see Mr. Geo. Wilkes Simmons' letter on next page.

## The Ketcham Farm.

## TESTIMONIALS.

75 WILLOW ST., LYNN, MASS., August 17, 1888.

One of my horses "went lame" for a year and a half. I put a pair of your Pads on him a year ago last spring, and used them on him about nine months. His feet then looked so well that I decided to try him without them. He has been used in the livery business ever since, and has as "sound" a foot as I ever saw on a horse.

W. A. BRAY, Sale Stables.

914 Brown St., PHILADELPHIA, PA., Feb. 2, 1888.

The Rubber and Cork Pads are superior in *practical value and economy* to any protection for the horses' feet that I have ever seen, for work on our hard pavements. In economy they will make a saving of *at least* 10 per cent. in horse-shoeing bills, and in *service*, a horse can travel fifteen miles with the Pads easier than he can travel ten miles without them. They will spread the foot, thereby relieving contraction, and prevent, or remedy, at least, many of the diseases to which the horse's foot is subject. By preventing concussion, and adhering to the surface, they *give the horse confidence causing him to extend his gait, and improve his general appearance.*

J. A. MARTIN, Veterinary Surgeon.

SCHENECTADY, N. Y., August 15, 1888.

The principle of the Pads, creating a frog-pressure, is *strictly correct*, that being Nature's remedy for, as well as preventive of contracted heels. Their *practical value* should give them an extensive sale, and their universal use would be a great saving to owners of, as well as a great mercy to, horses generally.

D. G. CHRISTIE,
Supt. Schenectady Street Railway Co.

No. 114. Calk Cover. To be placed over the shoe and over the sharp calks when in stable, thus preventiug injury to the horse .....Per pair, $1 50

No. 115. Patent Ice Creepers. A perfect temporary or permanent arrangement for slippery and icy roads. It is easily and quickly adjusted, and fits any size shoe. The only parts that wear are the *points*, and they can be renewed at a nominal price. Very durable.....Per set, 3 00

No 116. Dr. Roberge's Patent Hoof Expander. Cures Corns, Contractions, Quarter Cracks, etc. It is the best invention for expanding a contracted foot, and keeping a foot sound and in its natural shape. It is used and approved by the leading horse owners of the New York Driving Park, such as Robt. Bonner, Frank Work, and hundreds of other gentlemen of repute. In ordering, send diagram of foot.....Per pair, 2 00

MR. BONNER says: "I have used the Roberge Hoof Expander on Maud S. and other horses with good results. It is an excellent instrument for expanding the hoof when properly applied." ROBERT BONNER.

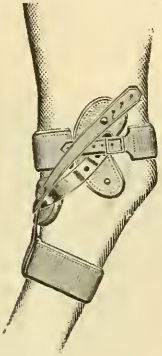
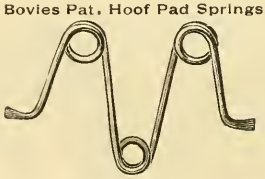
Truss for the Radical Cure of Bog Spavin and Thoroughpin.



**No. 116½.**

Bovies Pat. Hoof Pad Springs.



**No. 117.**

Veterinary Curb Compress.

**No. 118½.**

No. 116½. Professor Baker's Truss for the radical cure of bog spavin and thoroughpin. .....Each, 10 00

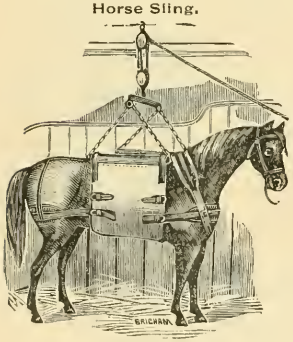
No. 117. Bovies Pat. Pad Springs. For Winter and Summer use. As a substitute for snow shoes they are invaluable, being far superior to anything in the market. By using pieces of felt held in the foot by these springs, you have an elastic movement that prevents the accumulation of snow in the feet They are needed for stable use just as much in Winter as in Summer, as moisture freezes out of feet quicker than it dries out. Price.....Per pair, $1 00

DIRECTIONS—Get two small sponges, place the wet sponge in the foot, slip one end of spring under one side of shoe and press together till the other end slides under the opposite side. Can be put in with the single point toward the toe or the reverse. If not convenient to get sponges, take wet cloths or pieces of heavy felt. These springs will hold anything in the foot. Two sizes, Nos. 1 and 2. No. 1 fits any foot up to a No. 3 shoe, and No. 2 fits No. 4 shoe and upwards.

No. 118. Anti-Snow Ball Pad. Sizes as follows, measured across the Pad: No. 2, 2¾ inches; No. 3, 3 inches; No. 4, 3¼ inches; No. 5, 3⅝ inches; No. 6, 4 inches. Price.....Per pair, $2 00

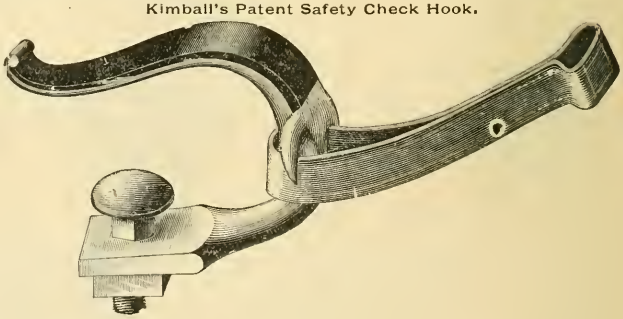
No. 118½. The Veterinary Curb Compress. Cures curb by pressure, in from 5 to 10 days, without injury to the hair or horse, or the infliction of any suffering to the animal.....Each, $10 00

Horse Sling.



**No. 119.**

Kimball's Patent Safety Check Hook.



**No. 120.**

No. 119. Horse Sling. For use in cases of broken or injured limbs. Price, complete.....Each, $25 00

No. 120. Kimball's Patent Safety Check Hook. The most practical and least complicated Check Hook ever offered to the public. 1st. A horse can not become unchecked. 2nd. This hook will not break; ordinary ones do. 3rd. It raises the saddle from the horse's back, instead of pulling it down, as is the case with the ordinary hooks. Endorsed by many of the best horsemen in the United States as being the *best*, the *cheapest* and the simplest Check Hook ever offered. Nickel or Imitation Rubber.....Each, 50c.

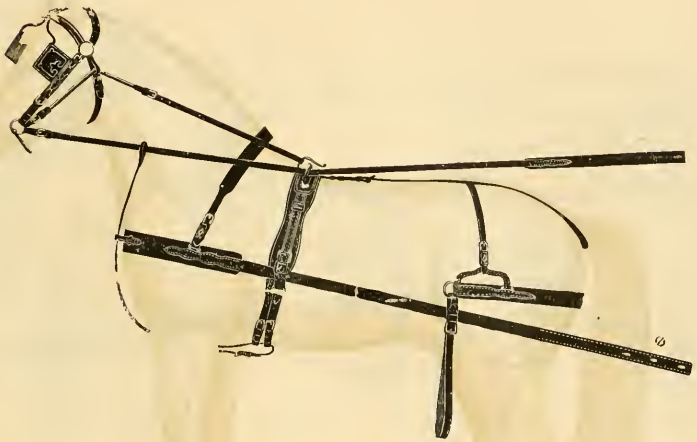
## "ELLIS" SINGLE PONY HARNESS.



**No. 144.**

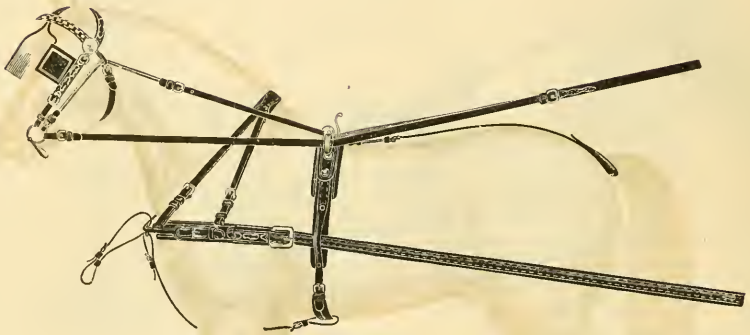
No. 144. Russet Pony Harness. This Harness is made of fine russet or fair leather throughout, with fine nickel, on composition trimmings, and makes a very elegant, as well as durable Harness..... Price, $14 00

No. 145. Russet Pony Harness, similar to above, only finer finished throughout..... " 20 00

No. 146. Russet Pony Harness. Similar to No. 145, only made with Fancy Folded Breeching and Breast Collar, Double and Stitched Traces, and much finer finished throughout..... " 25 00

N. B.—Please state height and weight of pony when ordering. We make all of the above harness in proportion throughout to fit ponies properly, and either with Single Strap or Full Padded Saddle; but, when not specified, we invariably put in the Single Strap Saddle, as it is the most practical. We can also furnish any of the above harness in black harness leather throughout if desired, at same price; but we consider the russet the handsomest, and invariably send them unless otherwise ordered. If Collar and Hames are wanted instead of Breast Collar, we will furnish them with any of the above at $2 00 additional.

## "ELLIS" DOUBLE PONY HARNESS.



**No. 147.**

No. 147. Double Pony Harness. Made of best quality Russet or Fair Leather. Double and stitched traces to buckle. Fine Nickel on Composition Mountings throughout.....Price, $24 00

No. 148 Similar to above, only made with single strap traces and finer finished throughout. Makes a much finer and neater Harness than No. 147, as they are much lighter and less bulky, and are the most desirable to buy..... " 30 00

N. B.—When ordering Pony Harness, please state height and weight of ponies. We can furnish either of the above grades in Black Harness Leather if desired, and also with Collar and Hames, at same price, but invariably send the Russet in Breast Collar unless otherwise ordered.

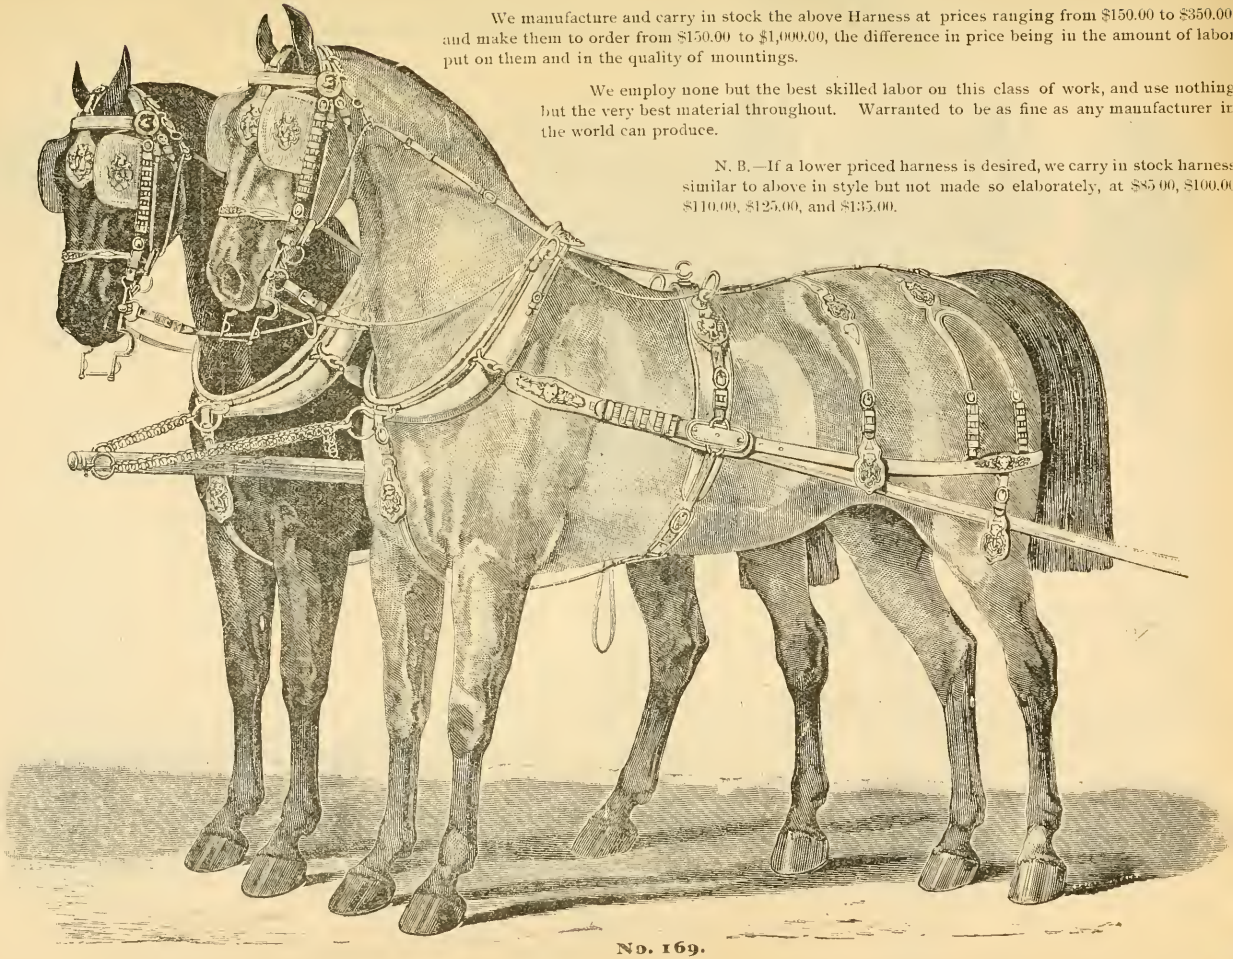
Any of the above grades furnished in Breeching at $5 00 extra. All of the above grades are made similar in style, the difference in price being in quality of Mountings, Leather and Finish.

# FINEST ENGLISH LONG TUG COACH HARNESS.

We manufacture and carry in stock the above Harness at prices ranging from $150.00 to $350.00 and make them to order from $150.00 to $1,000.00, the difference in price being in the amount of labor put on them and in the quality of mountings.

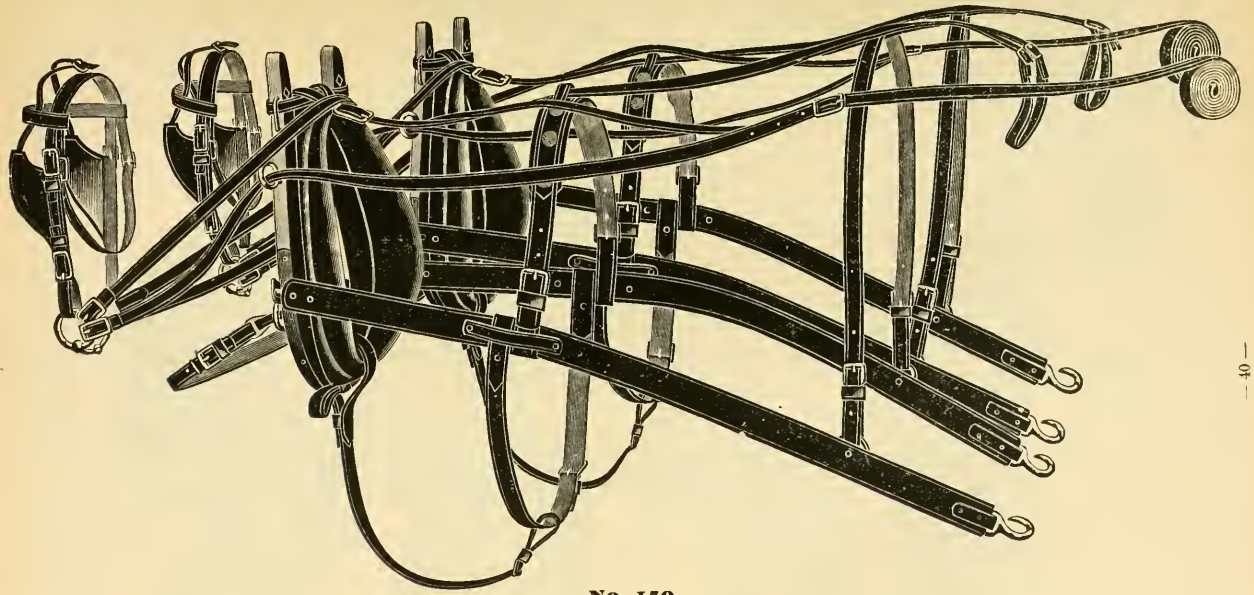
We employ none but the best skilled labor on this class of work, and use nothing but the very best material throughout. Warranted to be as fine as any manufacturer in the world can produce.

N. B.—If a lower priced harness is desired, we carry in stock harness similar to above in style but not made so elaborately, at $85.00, $100.00, $110.00, $125.00, and $135.00.



No. 169.

## ELLIS' FOLDED TRACE DOUBLE TEAM HARNESS.



**No. 170.**

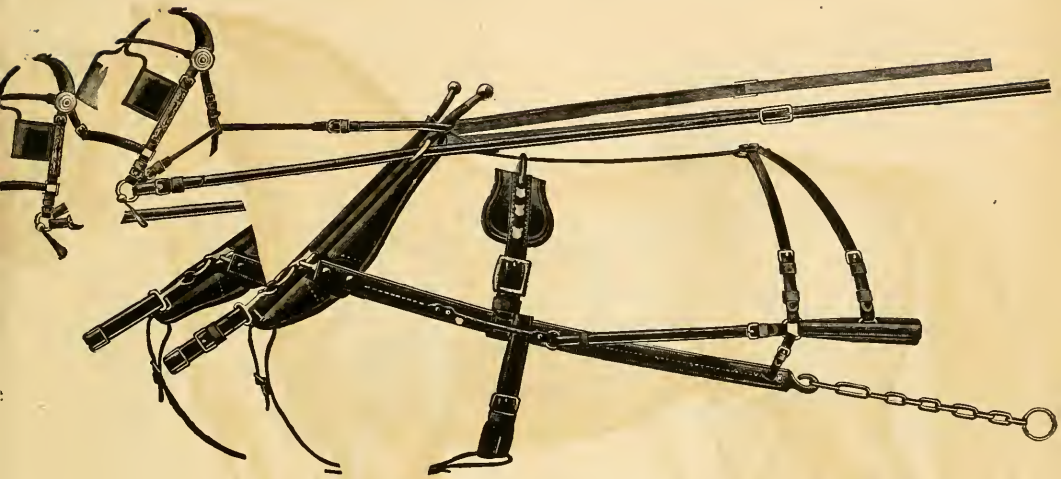
The above represents our celebrated Folded Trace Double Team Harness, made as follows: Bridles, $\frac{7}{8}$ inch, with Square Patent Leather Blinds, or Pigeon Wing Blinds, if preferred; 1in.x18ft. Lines, heavy Scotch Collars, Hook Hames or Stage Hames, riveted to trace as desired. Traces are cut $4\frac{3}{4}$ inches, out of extra solid oak-tanned stock and folded over, making them about $2\frac{1}{2}$ inches wide when finished. Folded Back Bands, Double Breast Straps and Choke Straps.

Price, Complete, in Hip Strap..... $24 00

Price, Complete, in Breeching..... 26 00

Any one desiring a strictly first-class harness will get it by ordering the above, as they are the very best that can be produced for the money. If you desire a cheaper harness, we have them at $14.70, $18.00, and $20.00 in Hip Strap, or $2.00 extra for Breeching. These are made about the same style as above, but have double and stitched traces instead of folded.

DOUBLE CITY TRUCK OR BREWERY WAGON HARNESS.



**No. 171.**

Bridles, ⅞ inch, plain harness, leather blinds, round reins. Lines, 1 inch, all black, 18 feet long, Hames, Boston Concord, fancy ball top, iron bound. Collars, heavy Scotch, all kip, wool face. Traces, 1¾ inch, with centre stitch, with hooks, wrought butt chains. Backs, folded, fancy swell inserted housings, with 1½-inch lay, double and stitched points, ornaments. Breeching, extra wide fold, 1½-inch lay, 1-inch hip straps, 1½-inch turnbacks, with long side straps. Breast Straps, buckle, 1¾ inch, with snaps and slides. Choke Straps, 1½ inch. Made with breeching only. Price, complete..... $40 00

## GOAT HARNESS.

**No. 174.**

## ELLIS' LATEST IMPROVED TROTTING AND PACING HOBBLES.

**Of Great Value in Teaching Youngsters to Trot or Pace as Desired Recommended and Used by many of the Leading Trainers.**

Our Hobbles are the most practical and best in the market and are so constructed as to convert a pacer to a trotter or *vice versa*.

DIRECTIONS.—If you desire your horse to trot, cross the connecting straps running from front to hind legs. To make the horse pace, change the connecting straps so that they run parallel, namely, have connecting straps in a straight line from right fore-leg to right hind-leg and from left fore-leg to left hind-leg.

No. 176. Trotting and Pacing Hobbles. Made plain, of good solid oak-tanned leather, no covering...Price, $ 7 50

No. 177. Trotting and Pacing Hobbles. Same as above, only has fine lambswool covering sewed on, so as not to cha e..... " 9 80

No. 178. Trotting and Pacing Hobbles. Similar in style to No. 176, only made of extra selected stock and has finest lambswool covering made to lace on so that it can be taken off, cleaned and put back at your pleasure..... " 12 00

No. 179. The Celebrated Pat Downing Trotting and Pacing Hobbles. Same as worn last season on Pat Downing 2:13¼, Bermuda Boy and many others of the best horses in the world. Made of finest Moffat's stock and hand-buffed English fold Leather. The best hobble made..... " 15 00

## ELLIS' IMPROVED CALIFORNIA ANTEROS SERVICE HOBBLES.

[Patent Applied for.]

THE SAFEST AND BEST IN THE WORLD. ENDORSED AND USED BY THE OWNERS OF ANTEROS, RED WILKES, ANTEEO, AMBASSADOR, ONWARD, JAY BIRD, ALFRED G., WILLIAM L., AND MANY OTHER NOTED SIRES.

**NO STOCK FARM CAN AFFORD TO BE WITHOUT THEM.**

**No. 180.**

No. 180. Ellis' Improved California Anteros Service Hobbles. To be used on mares when being served. Complete..... Price, $9 50

DIRECTIONS—Before taking the horse out of stall, unsnap the ropes from straps and buckle straps on the mare's hind legs, leaving the rings directly in front of her hock joints and the buckles on the outside of her legs, buckling the longest strap just above her hock joint, and the short one below. Then lead the horse out; and if the mare proves to be in season, lead the horse away for a few moments, and slip the neck piece over mare's neck like a breast collar bringing the part with pulley attached between her fore legs under her belly, and attach the snaps on rope to rings on straps around her hind legs. Then take hold of the strap under her belly, draw it up short, and buckle so that the hind legs are drawn well under the body of mare. She is then ready to be served, with no danger of accident.

---

No. 182. **BLACKWELL'S ENGLISH PATENT WHALEBONE AND RUBBER DUMB JOCKEY AND BREAKING CAVESSON.**

Colts and untractable horses broken by kind and gentle treatment, temperate and easy mouthed by using Blackwell's Patent Whalebone and Gutta Percha Jockeys, with rubber springs (of any length by tying the inside cord), and for exercising in frost, in boxes, and in stalls; on led horses to prevent falling and broken knees. They yield easily if a colt rolls over on his back, and he is not injured as with the old wood or iron jockey. Used by the first breeders and owners of horses in England. Above 5,000 in use. The dumb jockeys should not be kept on the colt more than half-an-hour at a time, as he is apt to turn sulky, and it can be put on several hours in a day. Made with two dees on the side. The lunge reins are passed to the bit, and the horse may be driven or lunged round. This plan is adopted by most of the large breakers, and very little lunging is done.

Breaking tackle of all kinds; cavessons, lunge-reins, improved straight mouth slide cheek breaking bits with players from 1 to 4 lbs. By placing two bags of shot weighing about 1 lb. each on the rings of the bit the weight is increased to 3 lbs. or 4 lbs. When this bit is used, the colt will not allow the weight to rest upon the lower jaw, but puts his nose in, until the weight is thrown entirely on the head, by which means he forms a fine crest, without pulling at his mouth and spoiling it.

Double spring hooks to attach the bits to the cavesson or head-collar in the stable; they save the colts ears being pulled about, as the head collar forms the bridle head.

Prices—Dumb Jockey with Crupper and Elastic Side Reins.....$35 00
Cavesson, with Lunge Rein..... 10 00
Complete..... 45 00

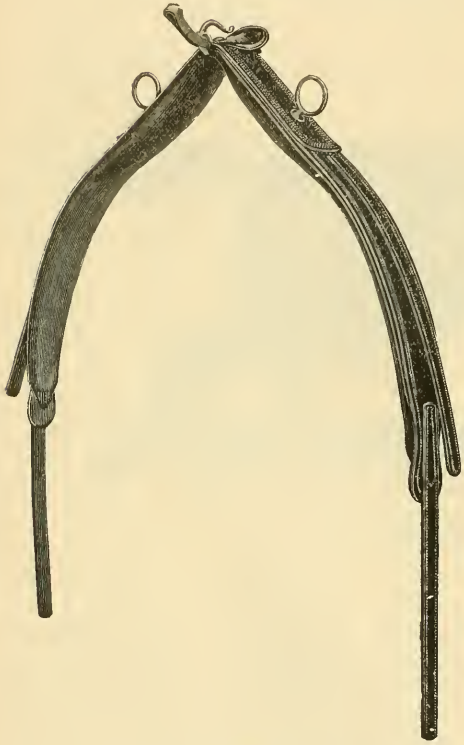
## THE CELEBRATED "ELLIS" TRACK SADDLES.

UPON WHICH WE HAVE GAINED A NATIONAL REPUTATION.



**No. 186.**

We make these Saddles in three styles, designated as follows:

STYLE A—Combination of Full Track and Buggy Tree. Can be changed in one minute from Low Terret to High.

STYLE B—Full Low Terret Track Tree.

STYLE C—Half Track Tree, Terrets being placed at a point between the Full Track and Buggy Tree.

NOTE.—All of our Track Saddles have bearers or Back-bands running clear over Tree in one piece from Shaft-tug to Shaft-tug, and are so constructed as to require no terret-holes to be cut in the Bearer, thus leaving its strength unimpaired.

| | | | |
|---|---|---|---|
| No. 183. | Track Saddle, Style C, 2½ or 2¾-in., Split Skirting, English Leather lined, jap. seat, 1st quality....Each, | $ 5 | 50 |
| | Second Quality..... | " 4 | 50 |
| No. 184. | Track Saddle, Style B, 2¾ or 3-in., best quality Split Skirting, English Leather lined, covered Seat; Finer made than No. 183..... | " 7 | 50 |
| No. 185. | Track Saddle, Style A, 2¾ or 3-in. Same as No. 184, but has extra terret holes..... | " 8 | 50 |
| No. 186. | Genuine K 2½, 2¾ or 3-in. Track Saddle, Style B or C..... | " 10 | 00 |

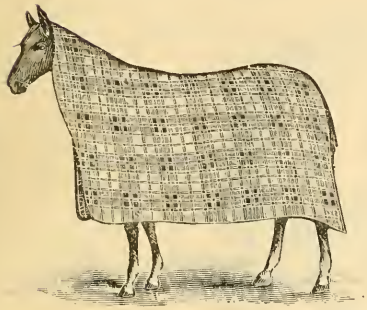
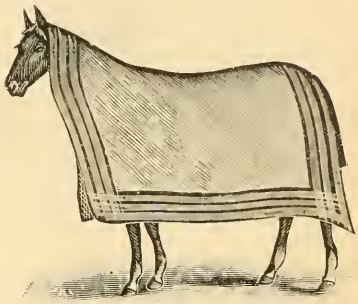
## SWEAT AND COOLING BLANKETS.

SWEAT BLANKET.



COOLING BLANKET.



### SWEAT BLANKETS.

| | | |
|---|---|---|
| No. 190. | Fancy Plaid Sweats, 90x96, All Wool | $ 6 45 |
| No. 191. | Extra Fine Sweats, 90x96, All Wool | 7 90 |
| No. 192. | Superfine very heavy Sweats, 90x96, exquisite patterns | 11 35 |
| No. 193. | Fine California All Wool Sweats, entirely new patterns, 90x96 | 12 50 |
| No. 194. | Finest California All Wool Sweats, entirely new patterns, 90x96 | 15 00 |

### COOLING BLANKETS.

| | | |
|---|---|---|
| No. 195. | Fair Quality All Wool Cooler, 90x96 | $ 4 25 |
| No. 196. | Good Quality All Wool Cooler, 90x96 | 4 75 |
| No. 197. | Superior Quality All Wool Cooler, *90x96 | 5 00 |
| No. 198. | Fine all-Wool Cooler, 90x96 | 6 00 |
| No. 199. | Extra Quality All Wool Cooler, *90x96 | 5 50 |
| No. 200. | Finest Quality California All Wool Cooler, 90x96 | 6 85 |
| No. 201. | Cotton Flannel Cooler, 84x90 | 1 65 |
| No. 202. | Nice Pattern Cotton Flannel Cooler, 84x90 | 2 50 |
| No. 203. | All Wool Cooler, 84x90 | 2 75 |
| No. 204. | Good Quality All Wool Cooler, 84x90 | 3 50 |
| No. 205. | Fine Quality All Wool Cooler, *84x90 | 4 00 |
| No. 206. | Extra Fine Quality All Wool Cooler, *84x90 | 4 50 |
| No. 207. | Superfine Quality All Wool Cooler, 84x90 | 5 00 |
| No. 208. | Finest Quality California All Wool Cooler, 84x90 | 5 80 |

In the above, the Blankets marked with an asterisk (*) are mostly used. The Nos. 200 and 208 are finer than are generally called for, while the Nos. 201 and 202, not being made of wool, are not very desirable.

NOTE—Suits composed of Square Blankets, with Hoods to match, are taking the place of Suits with shaped Blankets in training stables, as the square Sweat Blanket serves a double purpose. When such suits are desired, order the Blanket by catalogue number and Hood to match.

### Price of Hoods to Match Blankets.

Long Hoods, two-thirds the price of Blanket. Short Hoods, one-half the price of Blanket. All Sweat Hoods made to button; all Cooling Hoods made to tie. Cooling Hoods, as above, to button, 25 cents extra.

## WORKING SUITS.

| | | | |
|---|---|---|---|
| No. 218. | Plain trimmed, 4-piece suit, blanket, long hood, short hood, and throat hood, made of fine all-wool imported goods | Each, | $15 00 |
| No. 219. | Plain trimmed, 4 pieces, similar to 218, only not as fine | " | 13 50 |
| No. 220. | Plain trimmed, 4 pieces as above, domestic goods | " | 9 50 |

NOTE—The above are made of heavy goods, similar to Sweat Blankets and Kerseys, and should not be confounded with the light Cooling Suits.

## LETTERING SUITS.

We letter suits at the following prices:

| | | |
|---|---|---|
| Plain Letters | Each, | $ 12½ |
| " " braided | " | 20 |
| Old English Capitals braided | " | 35 |

Please state whether letters are desired on both sides of the blanket; in the absence of instruction both sides will be lettered. Be careful to write the name plainly so as to avoid errors.

### Fancy Dress Suits Made to Order for Presentation Purposes.

We make a specialty of *Extra Fine Fancy Dress Suits for Presentation Purposes.* The material used is the finest quality of Silk Plush, Broadcloth, or other appropriate goods, and is elaborately ornamented with gold or other costly fabrics. The lettering ornaments and other trimmings are artistically embroidered or appliqued upon body of suit, thus giving same an appearance of richness and elegance combined. Full description of suits furnished upon application. Prices ranging from $75.00 to $500.00.

Size 28 will fit a horse weighing from 1,250 to 1,400 lbs. Size 30 will fit a horse weighing from 1,350 to 1,500 lbs. In ordering please state size wanted.

### WHAT HORSEMEN THINK OF THE ABOVE GOODS.

RACINE, WIS., February 2, 1891.

The three dozen blankets I purchased of you last Fall have been used during the past Winter and have given perfect satisfaction. As a matter of comfort to the horse and economy to the owner, they can not be beaten. Yours truly, J. I. CASE.

CHICAGO, January 2, 1892.

GENTLEMEN—I have noted with pleasure by your advertisements in the horse papers that you have chosen Faustino as a horse on which to display your most excellent blanket. Faustino feels greatly complimented by it. As he stands in his stall blanketed to-day, he looks exactly as he does in the picture.

In this connection allow me to tell you what I think of your blanket. You know that when you first commenced to make them (I think something over one year ago), I bought a lot of them, and I want to say, after an experience that has thoroughly tested them, that I believe them to be the most practical, the most economical and the best blankets ever used on a horse. I am using none other and am satisfied that every owner and horseman will be of the same opinion as I am after they have used them. Wishing you every success, and again thanking you for the compliment of selection, Faustino, I am,

Yours truly,

FRANK S. WATERS.

**No. 491.**

No. 491. Ne Plus Ultra Bit.

Especially to improve the speed of trotting and running horses. "The best Bit in the world for hard pulling horses," is what Budd Doble has to say about it.

This Bit is for controlling running, trotting, and all kinds of hard or bad-mouthed horses, and it works equally well with horses having good mouths, all of which is acknowledged by many trainers, drivers and riders who are now using them every day on all the running and trotting race courses in New York and vicinity; and this Bit has become a great necessity with many of the most prominent owners and trainers in the racing and trotting business. This Bit controls runaway horses and hard pullers of any kind, so they become very easy and safe drivers, in a very few days, which is not the case with any other Bit. It stops horses pulling on one rein or lugging on the Bit. It will prevent any horse getting the tongue over the Bit, and lolling it out of one side of the mouth. It very soon teaches lugging horses to carry their heads well up, drive nicely with a very slight pull on the lines, without the check rein. It breaks horses from balting or shying. Ladies can hold and manage a hard-pulling horse with this Bit much easier than a strong man can do with any other Bit. This Bit is very useful when two or more horses are driven together, where one works out ahead of his mate. This Bit put in the mouth of the free horse, will equalize their pull so they will drive all right in most cases. Parties ordering these Bits should plainly state the fault they wish to cure, so directions may go with the Bit, how to adjust it in the mouth.

First Quality only.....Each, $5 00

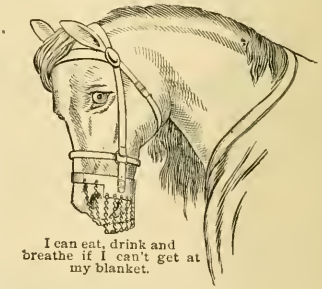
Patent Removable Bottom Muzzle.

**No. 537.**

Patent Link Apron Blanket Muzzle.
Easily Attached to Halter.



**No. 538.**

No. 537. Patent Removable Bottom Muzzle. Made of the best Russet Leather, with Metal Bottom.....Price, $4 00

Can be instantly changed into a closed or open muzzle without removing from the horse's head. Allows eating hay, grain, etc., with the bottom removed; yet absolutely prevents all vicious use of the jaw. Guaranteed to prevent any horse from tearing blankets or other wearing apparel with the teeth, gnawing the manger, biting himself or attendant, and cure the worst cases of cribbing. Every stallion should wear one in the stable. It prevents nipping and biting, and you can handle and care for them with perfect safety. It is the only device ever made that compels slow eating and consequent proper mastication of all food. There are no sharp edges to cut or lacerate the lips. The hole in the bottom is of such shape that chafing the lips while procuring food is impossible. The removable bottom can be instantly attached from the outside, converting it into a closed muzzle, to prevent eating without removing the muzzle from the head.

DIRECTIONS—Adjust the muzzle so that when it hangs loosely on the head the end of the lips will be about 1½ inches from the bottom.

No. 538. Patent Link Apron Blanket Muzzle. The best blanket protector made. Can not absorb filth. It cleans itself, follows every movement of the head, and does its work.....Each, $2 00

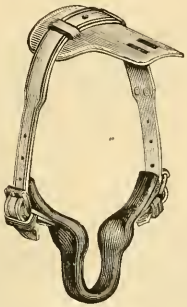
## CRIBBING MUZZLES, FEED BAGS AND BOXES.

CRIBBBING MUZZLE

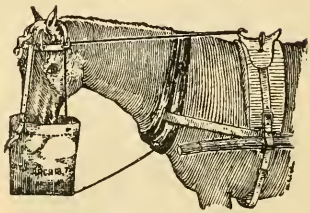
No. 539.

Patent Cribbing Strap



No. 540.

Adjustable Feed Bag.



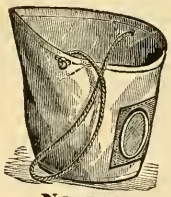
No. 541.

No. 539. Cribbing Muzzle. A sure preventative against horse cribbing the mangers, and yet so ingeniously constructed as to allow them to eat their hay and grain with ease. Also used on a biting or vicious horse. Complete with leather straps.....Each, $2 00

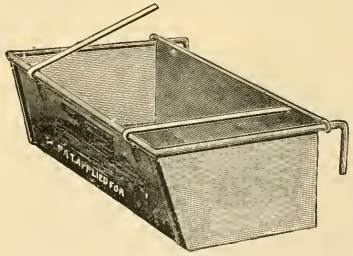
No. 540. Patent French Cribbing Strap. The best in the world..... " 7 00

No. 541. Patent Adjustable Feed Bag. Automatically adjusted. Remains in position and allows the horse to lift his head and breathe freely, and can not spill his feed..... " 1 00

FEED BOXES.



No. 542.



No. 544.

No. 542. Ventilated Feed Bag. Extra heavy duck.....Each, $ 85

No. 543. Canvas Feed Bag. Not ventilated..... " 50

No. 543½. Feed Box. Made of very strong sheet iron, galvanized, all seams thoroughly joined, stout iron hooks without bars..... " 1 75

No. 544. Same as above, with ("patent-applied-for") removable bars, as shown in cut, to prevent the horse from throwing out his feed..... " 2 00

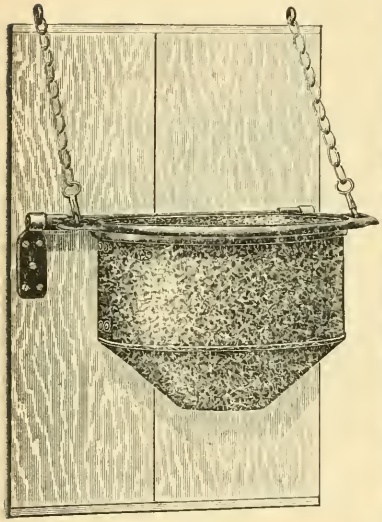
NOTE.—The "Patent-applied-for" Removable-bar Feed Box is one of the most desirable articles ever offered to the horsemen of this country. It is particularly valuable to horsemen during campaigning season, as the bars can be easily removed, so as to enable you to nest same, thereby economizing much needed space in shipping. The bar is very simple in its construction, and, at the same time, when placed in the box, is so securely locked that it is impossible for the horse to remove it or work it loose. A child can remove or adjust the bar without difficulty. The box is made with a view to strength, lightness and durability.

# G. S. Ellis & Son

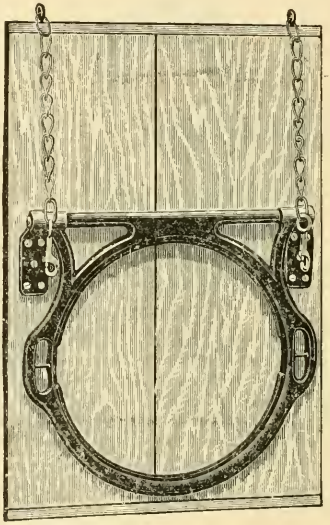
## THE ECONOMY FEED BOX AND FITTING.

**FOR WHICH WE ARE GENERAL AGENTS.**

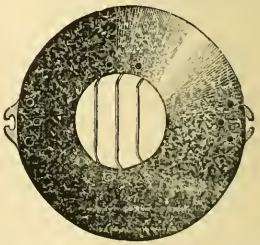
PREVENTS HORSES FROM WASTING THEIR GRAIN, AND IS ENDORSED BY ALL LEADING HORSEMEN.



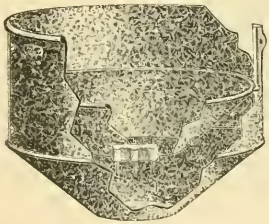
**No. 545.**
**Economy Feed Box and Fitting Complete.**



Cut showing Board and Cast Ring dropped down out of the way when the horse is not feeding.



Showing Follower taken out for Cleaning.



Sectional view, showing how Follower works

These Cuts illustrate the principle of the Box—that the horse is compelled to take up his oats in small quantities, and not by the mouthful, as is usually done by spirited and hungry horses, and soon acquires the very wholesome habit of masticating his feed well before swallowing—a good lesson to either man or beast. As he eats slowly he naturally moistens his oats, which avoids the practice of wetting the feed

It is not necessary to remove Follower, but simply pour oats into box and pull up the follower, which follows down until every grain is consumed. This box will save its price in a very short time and keep the horse in good condition.

No. 545. Economy Feed Box with Fitting, Complete.....Each, $ 6 00
In lots of not less than one-half dozen.....Per doz. 60 00

RUSH PARK STOCK FARM,
INDEPENDENCE, IOWA, Dec 11, 1891.

*Gents*:—The ECONOMY FEED BOX is the best thing of the kind I have ever seen. Please name me lowest price on two (2) dozen
Truly yours, C. W. WILLIAMS.

KALAMAZOO FARM,
KALAMAZOO, MICH., Jan. 8th, 1892.

*Gentlemen*:—We have just received the ECONOMY FEED BOXES, have placed them in our stables, and we are greatly pleased with them. They are the best feed boxes we have ever used or seen. I can recommend them to any one using such an article.
Very truly yours, S. A. BROWNE & CO.

LOUISVILLE, KY., Jan 2d, 1892.

*Dear Sirs*:—Some time last fall you expressed us three of your FEED BOXES, we having given your agent an order for only one; remitted for that one and wrote you that we would return the other two. Since writing we have tested the box and find them very satisfactory, and now remit for the balance in full for the three boxes. Should have remitted long since had we tested the boxes earlier, but not until recently did we put the boxes up and test them. We recommend them very highly. Shall commence working our racing stables some time during February, and you may make us, say 1st of February, a price on a dozen boxes, and we may purchase them, and later on may buy boxes for each horse in racing.
Yours most respectfully, SCOGGAN BROS.

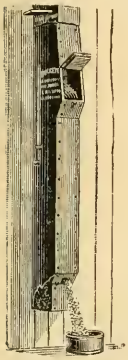
## KASPER'S SELF-ACTING OATS CLEANER.

PATENTED JUNE 8, 1886.



*Feed All Horses Clean Oats by Using*

### KASPER'S Self-Acting Oats Cleaner

**FOR STABLE USE.**

Over Ten Thousand Cleaners Now in Use.

THIS Cleaner will remove a bushel of dust, dirt and impurities from every twenty-five or thirty bushels of the best white oats.

**No. 546.**

Not one quart of oats or grain can be drawn without being cleaned.

This is the most perfect grain purifier ever known.

Can not get out of order and will last for years.

No power necessary.

It saves sickness among horses, money, time and trouble.

The oats and grain are cleaned as they pass through the cleaner.

All farms, private, livery, boarding and teaming stables should have them.

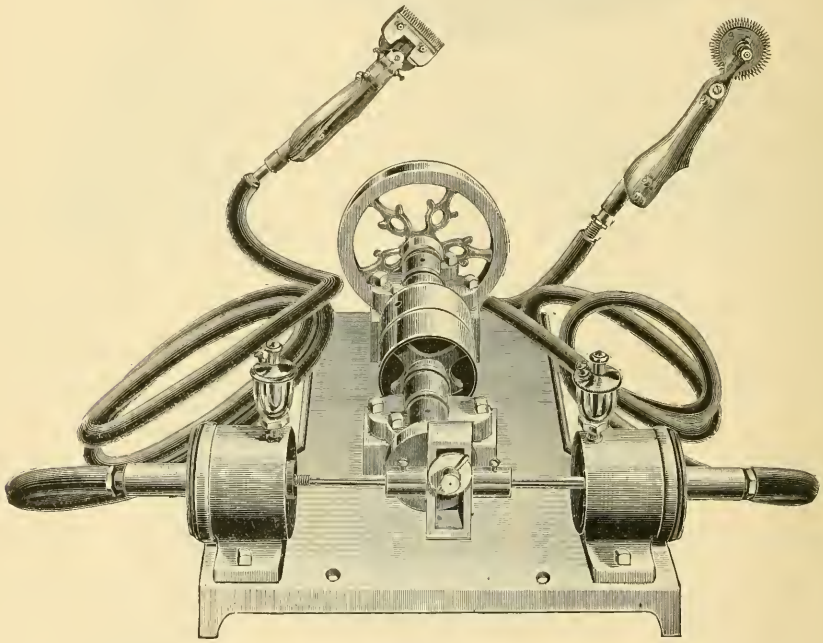
## AIR-POWER HORSE-CLIPPING MACHINE.

**THE UNANIMOUS OPINION OF A NUMBER OF PRACTICAL HORSE CLIPPERS:**

"Of the many improvements in power horse-clipping machines brought out by you in the past twenty-six years, we do not hesitate to say that your Air-power Machine leads the world."



**No. 599.**

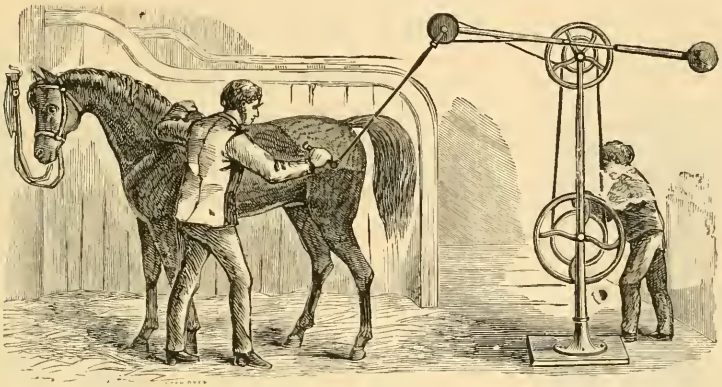
No. 599. Air Power Horse Clipping Machine. Complete, with two square-end handles, with 15 feet of hose to each handle.....Price, $85 00

We have yet to show this machine in operation to an experienced horse clipper in search of a power machine without finding a ready and willing purchaser.

This machine may be run by either steam, water, or electric motor power. Suspended by a platform above the horse's head, it occupies less than two square feet of space, and with from 15 to 25 feet of hose to each handle, has a tremendous range, and will easily perform double the work of any other power machine on the market. This machine is very simple in construction, of the best material and workmanship, has self-oiling bearings and is adjustable to all wear.

# Horse Outfitters

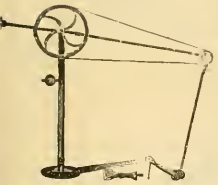
## POWER HORSE CLIPPING MACHINES.



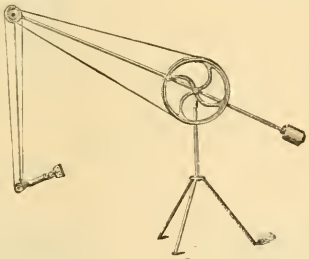
**No. 600.**

No. 600. Power Horse Clipping Machine. This is the perfection of a horse clipper; the first ever invented and the best ever made. It combines perfect freedom of motion, with extensive range. The connection for conveying power from the boy who turns to the cutter in the handle is positive, and there is the least possible waste of power, It is easily kept in order. With this machine the purchaser can have a handle with rotary or vibrating cutters, at his choice. The rotary cutter is much the best for shearing the head and legs, and works nicely on the body of the horse; but some prefer the vibrating cutter, because it cuts faster.

Price, complete..... $65 00

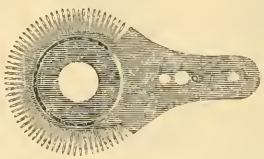


**No. 601.**



**No. 602.**

Rotary Comb.



Price, $3 50 each.

Rotary Cutter.

Price, $2 00 per doz.

No. 601. The cutters and handles of this machine are precisely the same as those of No. 600. The machine is made on the same principle, but the parts which convey the power to the handle are shorter, and, consequently, the operator can not reach as far, and is obliged to move the machine oftener to clip all parts of the horse. This machine is first class and will give the best of satisfaction. Price complete.....$50 00

No. 602. Same size as No. 601, but has only vibrating cutters. The power is conveyed by a belt from balance arm to handle, which is not as convenient as are Nos. 600 and 601. Price, complete.....$35 00.

In ordering Nos. 600 or 601 machines, state whether Rotary or Vibrating Cutters are desired.

### EXTRA PARTS.—HANDLES.

Small Rotary Handle, complete, with 1 Comb and 12 Cutters.....Price, $24 00
Vibrating Handle, complete, with 1 Comb and Cutter..... " 23 00
Vibrating Comb and Cutter..... " 3 00

### COMBS AND CUTTERS.

Small Rotary Combs.....Price, each, $3 50
Large Rotary Combs..... " 4 00
Large Rotary Cutters.....Price, per doz., $3 00
Small Rotary Cutters..... " " 2 00

Full directions for setting up and operating the Clipper are sent with each machine.

NOTE.—Parties desiring to do very rapid work upon the bodies of horses can obtain an extra handle with rotary comb three inches in diameter.

Large Handle, Comb and Cutter, complete...Price, 25 00

The Large Comb and Cutter will not fit the handles supplied with the machines. Parties ordering should make no mistake.

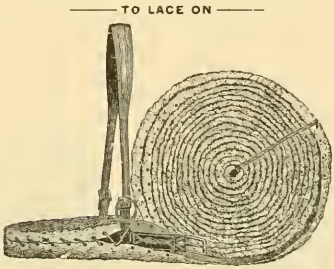
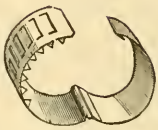
## PATENT LAMB'S WOOL HARNESS COVERING.



No. 669.



No. 673.

No. 674.

No. 669. Lamb's Wool Harness Covering—to Lace on. This covering is made of fine lamb's wool on the skin and lined with canvas. Hook lacers are securely fastened at each edge so that the covering can be laced on to breast collar, breeching or traces without trouble. A piece 3½ feet long covers breast collar; a piece 3 feet long covers breeching. Put up in rolls of 25 feet. Horsemen will find this the most convenient means of covering their harness where it chafes.

## COY'S IMPROVED DRIVING REIN.

**No. 677.**

The Improved Driving Rein, which is illustrated in this cut, is designed to meet a long felt want among drivers of horses trainers, jockeys, etc., and is especially appreciated by lady drivers. Everyone accustomed to driving has felt a constant annoyance occasioned by the ordinary smooth rein gradually slipping through the fingers, so that command of the horse is gradually relaxed. The inconvenience renders it necessary either to wind the rein about the hand to hold it, provide it with some kind of a hand-hold, like buttons or attached hand-loops, or else renew the grip every few minutes by gathering up the slack. Driving under such circumstances is very fatiguing.

To obviate these objections, a Driving Rein is now offered in which the hand-part consists of two strips or pieces instead of one, between which leather hand-loops are stitched as shown above. The two pieces are made from the finest stock, but being duplex are much lighter than would be suitable for a single rein. Between these pieces a number of loops are stitched at convenient intervals, ranging from six to ten inches, to meet the requirements of various kinds of service. Trial has shown that the loops readily adjust themselves to the hand of the driver, and greatly relieve the strain on the fingers in driving. When the hand is removed the loops collapse or flatten down, so that the hand piece can be passed through the bit-ring or terret without difficulty. Another commendable feature about this rein is that in its natural position, when in use, it lies flat on the horse's back, a point which all horse-drivers appreciate. These reins put vicious and hard-hitted horses under complete control.

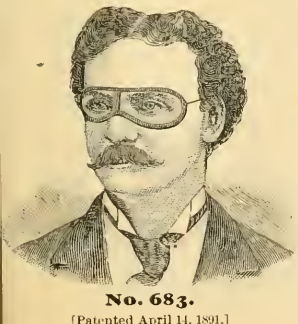
## THE LAMB EYE SHIELD.



**No. 683.**

[Patented April 14, 1891.]

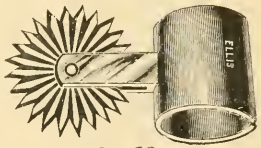
No. 683. The Lamb Eye Shield. Flexible, water-proof and non-heat conducting.

Per pair.....$ 50

Protect your eyes from dust and other flying particles, and from cold winds and snow in the winter season.

The cheapest, lightest and most durable Eye Protector ever presented to the public. Every one who drives a horse or rides a bicycle will appreciate its merits. The Lamb Eye Shield fits closely to the face, around the eyes, a soft perforated felt rim on the face side rendering it impossible for dust or any other substance to enter between it and the skin. Small perforations in the felt rim admit sufficient air for the eyes to retain their normal moisture. The lenses are formed of the clearest mica and are perfectly transparent. There is consequently less liability of injury to the eyes with this shield in case of accident than with other similar devices in which glass lenses are used.

## SULKY WHIP SPUR.



**No. 684.**

No. 684. Sulky Whip Spur, each, $1 00

Spurs are sometimes used upon sulky whips when the horse will not respond to the whip itself. This is more humane and quite as effective as the wire cracker or lash. This spur is adjustable, and rests near the thumb button on the whip, so that when applying the whip both spur and whip touch the horse.

No. 690.

No. 685. Stone's Sulky Case. In sending order for Case, give dimensions of wheel and sulky gear....Each, $15 00

This is the finest thing for parties campaigning trotters for their sulkies or fine road carts. These cases are made of canvas, to cover gear in one entire piece, buckling at the back, completely protecting same from dust and from being marred. The wheels are protected, each by a sack, which opens half way and buckles on, entirely screening them. One of these cases will, in one season, more than save its entire cost, and horsemen can not afford to be without them. We would refer you to S. A. Browne, Kalamazoo Stock Farm, Kalamazoo, Mich; S. L. Canton, Dubuque, Ia., who gave "Bell Boy" his record of 2:19¼; also, W. H. McCarthy, Los Angeles, Cal.

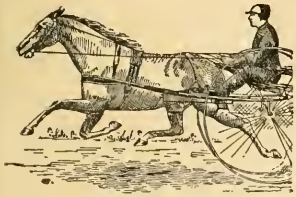
## SPREADERS FOR GAITING HORSES.

Whitaker's Pat. Spreader.



**No. 698.**

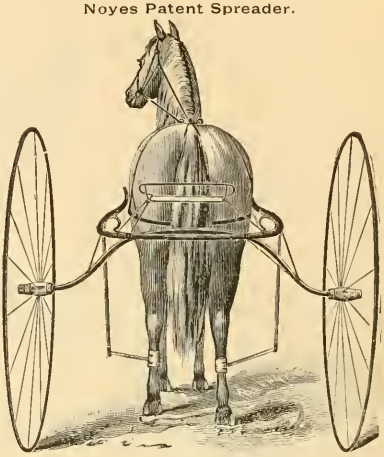
No. 698. Whitaker's Patent Spreaders. Stops interfering and makes horse go with feet well apart. It is very useful for both road and track purposes. The "Whitaker Pat. Spreader" has received some of the highest encomiums ever offered to any device for gaiting horses that has yet been placed upon the market. It will teach trotters and pacers to go steady and open-gaited, without striking quarters, shins, scalping, or going with one or both feet inside.

Price per set, complete.....$10 00

No. 699. The Celebrated Noyes Patent Spreader for gaiting horses. It stops forging, hitching and interfering, and makes your horse go squarely. It can easily be adjusted to any cart or sulky, and is so constructed as to render it absolutely non-chafing.

Price per set, complete.....$10 00

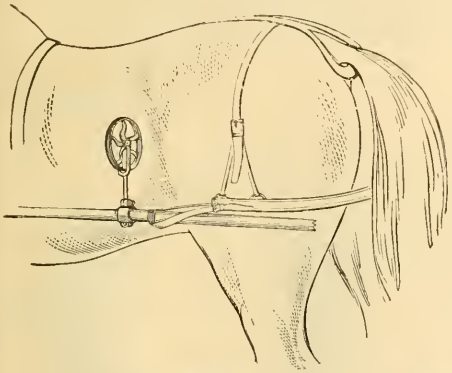
Noyes Patent Spreader.



**No. 699.**

## WOODNUTT GAITING WHEEL.

PATENTED APRIL 24, 1888.



**No. 700.**

No. 700. The Woodnutt Gaiting Wheel, properly applied, places the horse straight in the shafts, and, making it impossible for him to put the hind foot between the front ones, compels him to put it outside where it belongs, immediately on being started at half speed, and that is the end of hitching or breaking from that cause.

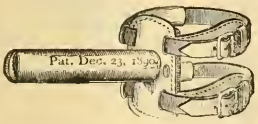
Price, each.....$10 00

From JOHN A. GOLDSMITH, )
NEW YORK, March 8, 1889. )

MR. H. C. WOODNUTT.

*Dear Sir*—After testing your patent gaiting-wheel I am pleased to say that it accomplishes all that you claim for it, and it is almost indispensable in gaiting and developing young trotters.

Yours truly,
JOHN A. GOLDSMITH.



**No. 701.**

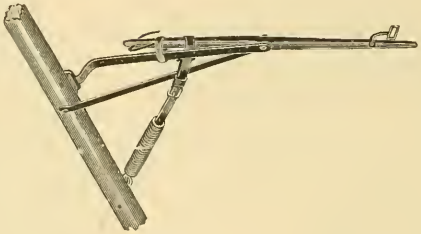
No. 701. The New Improved (Hague & Bolles) Double Strap Patent Spreader.....Per pair, $2 50
No. 702. Similar to No. 701, only shorter, for front leg interfering..... " 2 50
No. 703. Patent Ankle Support and Spreader..... " 3 00
No. 704. Haughey's Patent Spreader..... " 2 00

An excellent device to spread the colt's gait and make him a wide traveler. Every horseman will understand the merits of them when seen. They do not chafe the limb by collecting sand and grit. They are highly recommended by horsemen and horse-owners, as the many testimonials received will show.

## THE CHAMPION PATENT SHAFT ATTACHMENT.

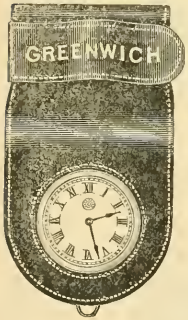


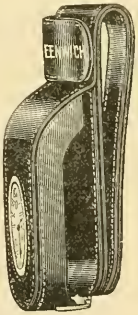
**No. 705.**

No. 705. The Champion Patent Shaft Attachment. Weight, 3 lbs.....Price, $6 00

A practical invention, designed and made especially for owners and educators of trotting and pacing colts. Can be attached or removed in five minutes. It can be used either in a rigid form, or with spring attachment, as shown in the above cut. With the use of the spring there is no possible strain on the colt. You can break colts in one quarter the time required by the old way, of leading, or trying to drive single. It is roomy and can be adjusted to fit any colt, from a suckling to a full grown. As a speed accelerator it stands without an equal, as you virtually have a trotting or running mate as you desire. The colt is simply kept in position and has nothing to do but trot or pace. There is no draught on the colt. It is the only correct principle for breaking colts. The plate and under arm are made from the best of steel, while the brace or top arm is Norway iron, with the best bolts. The single-tree is of second growth hickory, with nickel-plated tug holder on the outer end. The spring is four inches long, and made from the best crucible steel. They are highly painted, and finished in the best possible manner.

## DASH WATCH AND REIN HOLDER.





**No. 706.**

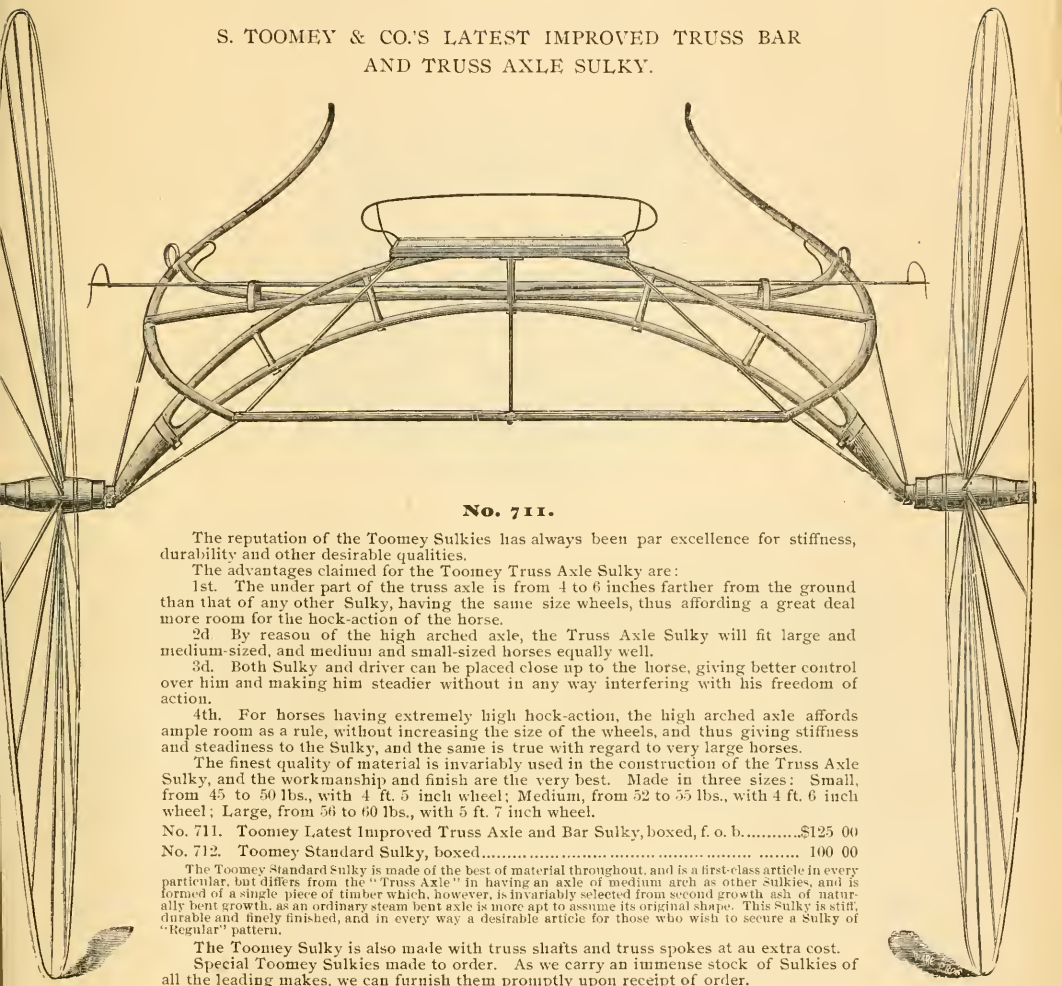
## S. TOOMEY & CO.'S LATEST IMPROVED TRUSS BAR AND TRUSS AXLE SULKY.



**No. 711.**

The reputation of the Toomey Sulkies has always been par excellence for stiffness, durability and other desirable qualities.

The advantages claimed for the Toomey Truss Axle Sulky are:

1st. The under part of the truss axle is from 4 to 6 inches farther from the ground than that of any other Sulky, having the same size wheels, thus affording a great deal more room for the hock-action of the horse.

2d By reason of the high arched axle, the Truss Axle Sulky will fit large and medium-sized, and medium and small-sized horses equally well.

3d. Both Sulky and driver can be placed close up to the horse, giving better control over him and making him steadier without in any way interfering with his freedom of action.

4th. For horses having extremely high hock-action, the high arched axle affords ample room as a rule, without increasing the size of the wheels, and thus giving stiffness and steadiness to the Sulky, and the same is true with regard to very large horses.

The finest quality of material is invariably used in the construction of the Truss Axle Sulky, and the workmanship and finish are the very best. Made in three sizes: Small, from 45 to 50 lbs., with 4 ft. 5 inch wheel; Medium, from 52 to 55 lbs., with 4 ft. 6 inch wheel; Large, from 56 to 60 lbs., with 5 ft. 7 inch wheel.

No. 711. Toomey Latest Improved Truss Axle and Bar Sulky, boxed, f. o. b.....$125 00

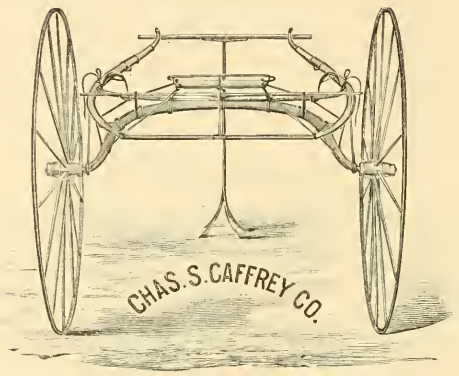
No. 712. Toomey Standard Sulky, boxed..... 100 00

The Toomey Standard Sulky is made of the best of material throughout, and is a first-class article in every particular, but differs from the "Truss Axle" in having an axle of medium arch as other Sulkies, and is formed of a single piece of timber which, however, is invariably selected from second growth ash of naturally bent growth, as an ordinary steam bent axle is more apt to assume its original shape. This Sulky is stiff, durable and finely finished, and in every way a desirable article for those who wish to secure a Sulky of "Regular" pattern.

The Toomey Sulky is also made with truss shafts and truss spokes at an extra cost.

Special Toomey Sulkies made to order. As we carry an immense stock of Sulkies of all the leading makes, we can furnish them promptly upon receipt of order.

## THE LATEST IMPROVED CAFFREY SULKY.



**No. 713.**

No. 713. The Improved Caffrey Sulky. Price on board cars.....Each, $125 00

Crating, invariably extra ..... " 5 00

### THE MANUFACTURERS CLAIM THE FOLLOWING FOR THEIR SULKIES:

The pre-eminence of their famous Sulky is fully maintained by the late improvements, to which attention is asked and a critical examination particularly desired.

THE COMPOUND AXLE CURVED ABOVE THE SHAFTS, and braced in conjunction thereto, secures a structure that is absolutely steady, and the best ever offered, adding more room for hock and stifle action than any heretofore shown.

THE SHAFTS ARE CONFORMED TO THE HORSE, and skillfully shaped to allow tight girthing without distress, while the seat and stirrups are arrranged to give an easy, natural position to the driver and a perfect balance, together with true running, so that when rounding track turns friction is reduced to a minimum, making a fast sulky for the severest work.

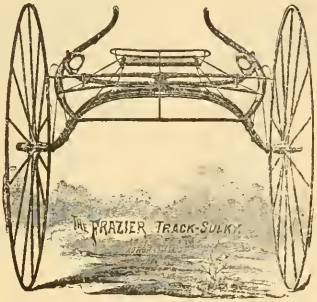
FOR HORSES REQUIRING WIDE STIFLE ROOM, or those having high hock action, this Sulky is particularly adapted, and the model of it is such that we are enabled to build it in extra widths, and to any height desired, and still retain the rigid axle.

IN ORDERING, be particular in giving correct height of horse (and if the length is not in proportion to height, state the fact), with any peculiarity of gait or manner of going when at speed; also, state height and weight of driver.

---

N. B.—As we carry an immense stock of Sulkies of all the leading makes, we can furnish them promptly

## FRAZIER TRACK SULKY.



**No. 714.**

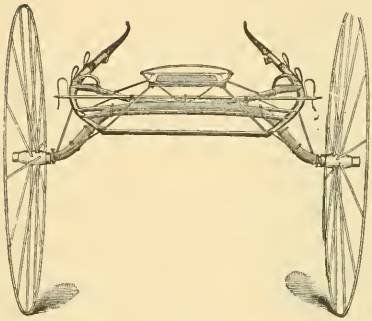
No. 714. The Frazier Track Sulky. Is made in different weights and sizes, to suit horses of any proportion or peculiarity of gait. It has a high-arched axle, and the circle-bar is set back, permitting the horse to be hitched close up to the driver. It has great width of stifle-room. The Frazier Sulky will be found to stand all the tests. Upon the receipt of order, in the absence of particular instruction, we ship the medium size, and of about 53 pounds in weight. This weight of sulky is plenty stiff enough for half-mile tracks, and will hitch up right to a horse of 15 hands to 15¾ hands. Larger sizes carried in stock.

Price, boxed, and free on board cars.....Each, $100 00

As we carry an immense stock of Sulkies of all the leading makes, we can furnish them promptly.

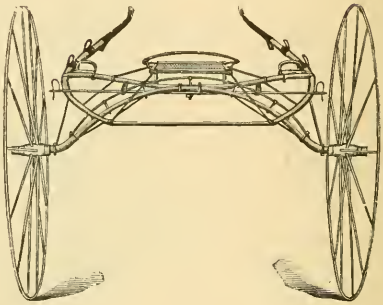
## THE CELEBRATED McMURRAY & FISHER SULKIES.

STANDARD.



**No. 714.**

NEW STYLE DOUBLE-AXLE.



**No. 715.**

No. 714. Standard Sulky. None but the finest material is used in the manufacture of this sulky. The axles are of the finest steel, with wrought boxes, and are imbedded in axle-beds of second-growth ash. The axle is arched 9 inches, allowing the horse to be hitched close to the seat. The shafts are of selected second-growth ash, and made extra wide at the point and at the stirrups, allowing plenty of room for horses of large action. The seats are caned and have silver rails. Boxed, on cars.....Price, $75 00

No. 715. New Style Double-Axle Sulky. Boxed, on board cars..... " 90 00

The sizes of these Sulkies, for convenience in ordering, are known as Light, Medium and Heavy. The light sulky has 4-foot 5-inch wheels, and is brauded 48 lbs. to 50 lbs. The medium sulky has 4-foot 6-inch wheels, and is branded from 52 lbs. to 55 lbs., and is proportionately larger in every way than the light sulky. The heavy sulky has 4-foot 7-inch wheels, and is branded from 56 lbs. to 60 lbs., being proportionately larger than the medium sulky. These sulkies are uniform in the size of axle, width of shafts and track, the difference in weight being in the size of shafts and wheels. The light sulky is best for horses 15 hands and under. The medium will suit horses from 15 hands to 15-3, and the heavy sulky will suit horses 16 hands and over. We would recommend the medium size as best for general use.

N. B.—As we carry an immense stock of Sulkies of all the leading makes, we can furnish them promptly. Special sizes to order on short notice.

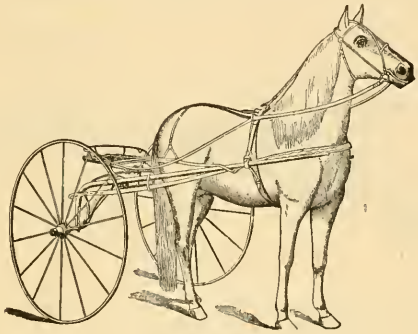
## THE SULKYETTE, OR CHAMPION CLOSE-HITCH SPEEDING CART.



**No. 716.**

No. 716. The Sulkyette, or Champion Close-Hitch Speeding Cart. Price, Complete.....Each, $45 00

### PLEASE NOTE THE FOLLOWING POINTS OF EXCELLENCE:

This Speeding Cart has all the points worthy of praise in a first-class sulky

You can hitch as close to the driver as in any of the standard sulkies.

The axle is arched equal to any sulky.

The rig is made without the common foot-rests in carts.

The feet rest in stirrups similar to a sulky.

The seat rests upon a transversed oil-tempered spring, which is attached at either end to the steel axle-arms.

The spring is desirable for road use, and when speeding can be strapped down. Seats are cane-bottom or covered as desired.

Swedes or Norway iron used for light iron work.

Best grade compressed band wheels and steel tires used.

Finished in plain wood, neatly striped or painted to suit the purchaser.

Weight, 80 to 100 pounds.

We are now prepared to fill all orders for this vehicle.

No. 1.

### DETAILED DESCRIPTION OF THE GEAR.

Design No. 1 gives a top view of the Sulkyette gear, showing exactly how close a horse can be hitched to the driver.

No. 2 shows a bottom view of the same.

With these two cuts we can give, to all who are interested, an exact and intelligent idea as to the construction of the Sulkyette gear, showing truss bar, circle bar, seat and stirrups or foot-rest for the feet, and as much room between the shafts as a Toomey Sulky.

The seat rests upon a circle bar, and is supported by a light half-elliptic spring, as shown in designs.

The axle is arched the same in pattern as the Caffrey Sulky.

The gear, when complete, is as stiff and rigid as any first-class sulky.

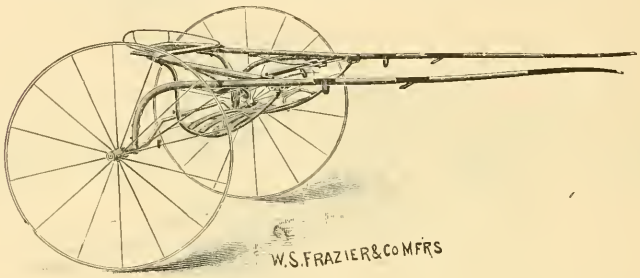
We feel that the above description gives a complete and comprehensive knowledge of the construction of all points of interest to horsemen.

No. 2.

# G. S. Ellis & Son

## THE CELEBRATED FRAZIER ROAD AND SPEEDING CARTS.

ACKNOWLEDGED BY ALL THE LEADING HORSEMEN TO BE THE BEST CART MADE.



**No. 717.**

No. 717. Standard Road Cart. On board Cars.....Price, $45 00

Capacious seat for one person, corduroy seat trimming, mounted from step behind axle, steel springs of the Frazier patent, oil-tempered; nickel-plated seat rail, weight, 100 to 105 pounds. The lightest weight has ¾ tire, and is sent only when that width of tire is especially ordered; ¾-inch axle, either banded wood hub or patent wheels; adjustably balanced by our patented device. Rubber boot for protection of the whole foot rest from dust and mud, shipped with cart. Seat-tray removable, very handy for carrying packages, etc, extra, $1.00. Hood or body of rubber duck for this cart, extra, $2.25 Colors, dark green and carmine, striped. Other colors painted to order. The longest and biggest gaited horses can be driven up to speed in Cart No. 717 Standard.

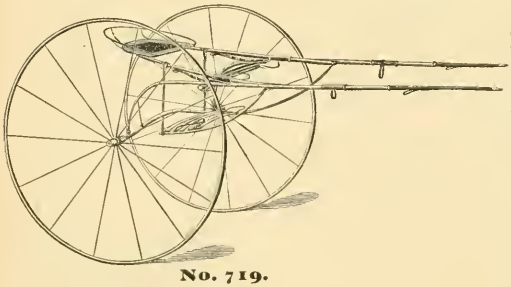
No. 718. Same as above, only made with double seat for two persons.....Price, $47 00

No. 717 Special. This Cart is made similar to the No. 717 Standard, only is much finer finished and lighter weight—83 to 90 pounds. Wood axle-bed, fine wood hub wheels; nickel-plated seat rail, plush seat trimmings; colors, carmine or malori green, striped. Aboard car..... " 60 00

No. 718 Special. Same as No. 717 Special, only has seat for two..... " 60 00

☞ We can furnish any of the above carts with interchangeable pole and shafts at $14.00 extra in Standard grade and $16.00 extra in special grades.

### THE FRAZIER C SPEEDING CART.



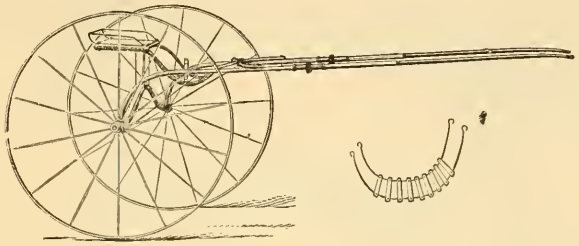
**No. 719.**

A combination of track sulky and road cart. Width of track, 4-6. Wood hub wheels 4 feet 4 inches high; wood-cased axle-bed, nickel-plated seat rail. Foot-rest, as shown in the cut, is in position for road work, the rear end being suspended by straps. It elevates at its rear, taking it out of the way of the horse's action when speeding on the track; stirrups directly in front of the cross-bar on the shafts, not shown in the cut, thus affording brace for the driver's feet. As finely finished as most track sulkies. This cart is well suited for the track and fine road beds, and is a favorite with gentlemen who speed their own horses, and who desire to drive through the streets to the form of a road cart, and when the track is reached, by a slight change, have practically a sulky for speeding purposes. It is speedily becoming the training vehicle of all well-appointed stables. Fine and elegant. Colors, carmine or malori green. Weight, 75 lbs.

No. 719. The Frazier C Speeding Cart. Crated, on board cars.....Each, $80 00

# Horse Outfitters

## "ELLIS" COMBINED SPEEDING AND ROAD CART.



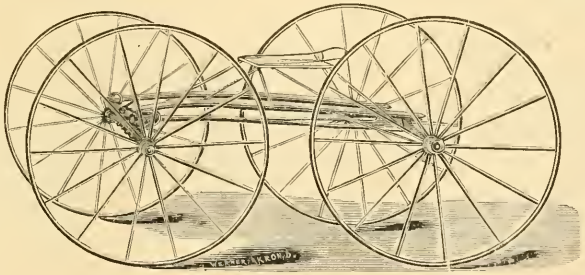
**No. 720.**

No. 720. This cart is highly finished, has a cane seat, ⅞-inch steel axle, extra quality wheels 52 inches high, long leather on shafts, painted either carmine or dark green, neatly striped, weighs about 85 pounds, and is a good and durable cart. It is pronounced perfection by horsemen. The foot rest can be removed in five seconds; by strapping the center of the spring to the axle, you avoid all spring motion. Nothing has been put upon the market that compares with this cart as a speeder and road cart combined.

Price.....$40 00

CUSHION, $3.50 EXTRA.

## "ELLIS" IMPROVED SKELETON WAGON.



**No. 721.**

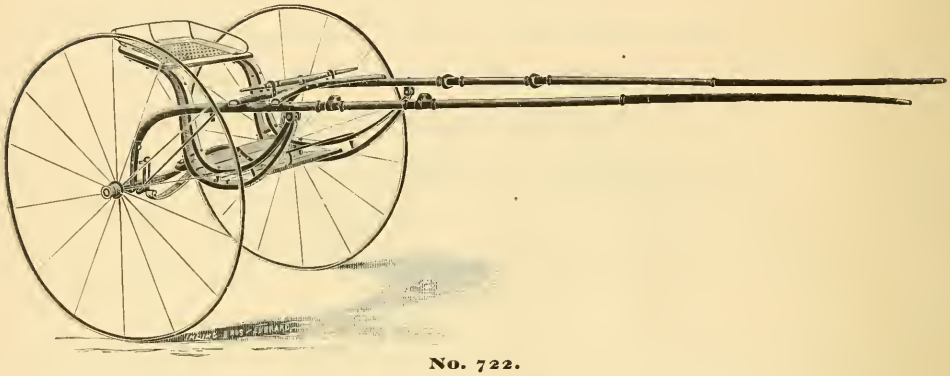
This is a very handsome wagon, made from second-growth hickory. Wheels have banded hub, full stagger spokes, ⅝ or ¾ tire. Axles ¾-inch finest steel (wrought chilled boxes), and are bedded into the axle bed, through from end to end. Seats caned. Silver rail. Color, carmine or Brewster green. All braces and irons are riveted to place. No bolts used where we can use a rivet. Track, 4 feet 6 inches. Weight, from 90 lbs. to 100 lbs.

No. 721. Price, complete with shafts, boxed on cars.....$100 00

We can furnish the above, with both pole and shafts, at an additional cost of $15.

# G. S. Ellis & Son

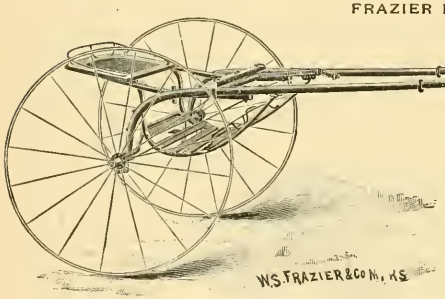
## BREAKING CARTS.



**No. 722.**

No. 722. Noyes' Celebrated Breaking Cart. Shafts three feet longer than their road cart. Seat wide enough for two persons. A good substantial cart.....Price, $40 00

### FRAZIER No. 723 BREAKING CART.

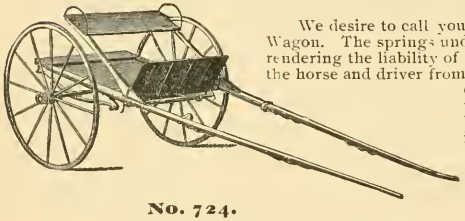


**No. 723.**

Has a 35-inch seat, long shafts, and is extra stout throughout. It has especial adaptation in several particulars for colt-breaking. Having long shafts, it guides easily for the colt, and their length is such that a kicking colt could not endanger the driver, nor could he even strike the cross-bar to bruise his heels or frighten himself. It is invaluable on a stock farm, and breeders and farmers frequently buy it for general road use. The seat is lower than upon other styles of Frazier Carts, and is supported upon arms of spring steel. It has an advantage over most breaking carts, inasmuch as it is a good road vehicle as well. It has a low-down detachable platform or foot-board, upon which the driver can step and ride before he has confidence in his colt to warrant him mounting the seat. To be able to step on and off the cart so quickly is a feature, the valuable nature of which will be appreciated by every man who has broken a colt. Weight, about 160 lbs.

Price, Crated, Aboard Cars.....$45, 00

### KENTUCKY BREAKING CART.



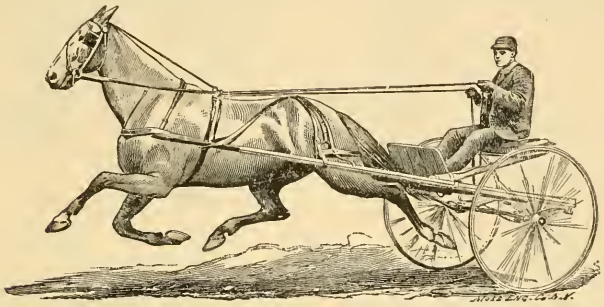
**No. 724.**

We desire to call your attention to this valuable and justly celebrated Breaking Wagon. The springs under shaft are attached to axle, thereby having elasticity and rendering the liability of fracturing the shaft to a minimum, at the same time relieving the horse and driver from all jolting when driving over rough roads. The most unruly colt or horse can be broken to harness quicker (without injury to himself or wagon) in this vehicle than any made. Can not be turned over; colt or horse can not rear up and fall back; impossible to kick when properly harnessed.

No. 724. Kentucky Breaking Cart. Complete, with cushion.....Price, $65 00
No. 725. Same as No. 724, only smaller throughout, for yearlings..... " 65 00

# Horse Outfitters

## THE CELEBRATED PALA ALTO BREAKING HARNESS.



**No. 726.**

No. 726. The Celebrated Pala Alto Breaking Harness. This harness is an exact duplicate of those used by Mr. Chas. Marvin at the Pala Alto Stock Farm, and are the best that money can produce.
Price, complete.....$30 00

We also manufacture three other grades, as follows:
No. 727 at.....$24 00 · No. 728 at.....$20 00 No. 729 at.....$14 80

Do not confound our Pala Alto Harness with those generally offered by manufacturers, as they are a much better harness than is generally sold. Any one desiring a good harness and doesn't want to put quite so much money in it as our Pala Alto Harness cost, will get a first-class article by ordering our No. 727 or 728.

## HORSE STANDARDS OR MEASURING CANES.

These standard canes are a combination of a handsome walking stick and measure. No stable complete without one; a very necessary article for owners or purchasers of horses; arranged to measure from 10 to 17 hands, and also indicates correct height of ladies and gentlemen. Made in various styles and prices.

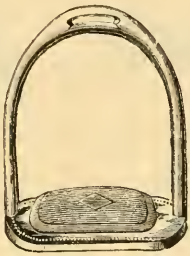
## STIRRUPS.

Whitman.

No. 932.

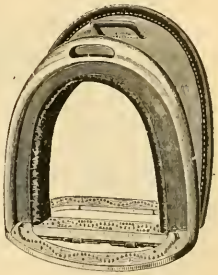


No. 936.

Whitman Turnfoot.

No. 938.

Ladies' Victoria Stirrup.



No. 942.

No. 932. Heavy Nickel-Plate Stirrup, rubber bottom.....Per pair, $3 50
No. 933. Heavy Nickel-Plate Stirrup, heavy wide bottom..... " 2 50
No. 934. Heavy Nickel-Plate Stirrup, heavy wide bottom..... " 1 50
No. 935. English Spring Stirrup..... " 3 50

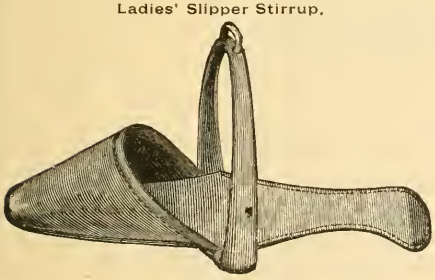
### WHITMAN'S RUBBER-FOOTED STIRRUPS.

The Whitman Stirrup, elegant in appearance and of proper weight, has a neat rubber mat, countersunk in its foot-plate. A pair of these stirrups can be used for a good while, and then be made new again by simply re-nickeling the same and substituting a new rubber mat for the old one.

No. 936. Whitman's Turn Foot Stirrups, nickel plated, flat legged.....Per pair, $3 50
No 937. Whitman's Stiff Foot Stirrups, nickel plate, extra large, flat legged..... " 3 00
No. 938 Whitman's Stiff Foot Stirrups, nickel plate, medium, round legged, light or heavy..... " 3 00
No. 939. Whitman's Stiff Foot Stirrups, nickel plate, small, round legged..... " 3 00
No. 940. Whitman's Stiff Foot Stirrups, nickel plate. Same style as No. 936, but with stiff foot; officers' pattern, flat legged, light or heavy..... " 3 00
No. 941. Whitman Ladies' Size Stirrup of No. 936. Flat legged.....Each, 1 75
No. 941 also makes a beautiful stirrup for boys' saddles.

Rubber Mats.....Per pair, 50
No. 942. Ladies' Victoria Stirrup. First quality, each, $1 75; second quality.....Each, 1 25

Ladies' Slipper Stirrup.



No. 943.

Ladies' Latchford Pat. Safety Stirrup.

No. 944.

Ladies' Scott Pat. Safety Stirrup.

No. 945.

No. 943. Ladies' Slipper Stirrup
First quality extra fine buckskin...Each, $2 50 Second quality.....Each, $1 75 Third quality.....Each, $1 00
No. 944. Ladies' Latchford Patent Safety Stirrup. Steel, fine polished or nickel plated..... " 5 00

The above style of stirrup is too well known to need commendation. Safety to the rider being assured by the ease with which the stirrup comes apart, as in case of the rider being thrown, the part A remains attached to the stirrup leather and B, on which the foot rests, separates from the other part, releasing the foot.

No. 945. Ladies' Scott Patent Safety Stirrup.....Each, $7 75

Fine nickel plated. No springs or any kind of mechanical contrivance to get out of order. The simplest, surest and most durable safety stirrup extant. In use by the Empress of Russia, the Princess of Wales, and numberless leading equestriennes.

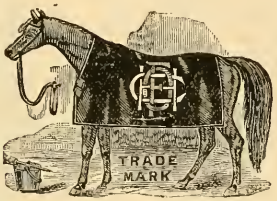
## CAMPBELL'S HORSE FOOT REMEDY.



It removes soreness, brittleness, and diseases of all kinds from horses' feet, and restores same to healthy condition. Makes the hoof soft, tough and elastic. A great substitute for soaking and packing of horses' feet.

PRICES:

Per ½-Gallon Can.....$ 1 75
Per 1-Gallon Can..... 3 00
Per 5-Gallon Can..... 13 75

NOTE.—This valuable preparation we have carried in stock constantly for the past three years, selling it on the guarantee given by the manufacturers, that if used as directed, and it failed to all that was claimed for it, money would be refunded. We have never been called upon to refund the amount of a single purchase, while trials also result in steady customers. Higher praise than this can no one give. It is not only a prevention, but also cures all ailments of the feet. It saves the labor and trouble of packing and soaking, and keeps the feet in perfect condition, and is the cheapest and best article of the kind you can put in your stable. It is used by the principal horsemen throughout the United States and Canada, and we take pleasure in recommending it to our patrons, confident it will give them the same good satisfaction it has hundreds and thousands of horsemen who have and are now using it.

We will be pleased to mail a valuable pamphlet on the cure and treatment of horses' feet, which also gives full instructions for the use of Campbell's Horse Foot Remedy. Applications will receive prompt attention.

G. S. ELLIS & SON.

# DR. HAGYARD'S Liquid * Blister.

*—— A CURE FOR ——*

Curbs, Splints, Sore Shins, Windpuffs, Strained Tendons, All Bony and Cutaneous Enlargements. Gives great relief in Distemper and Pneumonia

**$1.00 Per Bottle, or Six Bottles for $5.00. Special Prices to Trade.**

BOWERMAN BROS. write: "We applied Dr. Hagyard's Liquid Blister only once on a very large bog spavin and thoroughpin, effecting a perfect cure in less than a month. This case has been troubling us for over a year."

MR. F. V. R. HULL, trainer for A. J. Alexander, Woodburn Farm, Spring Station, Ky., says: "I have removed splints, curbs, bog spavins, and hard and soft enlargements from different animals with Dr. Hagyard's Liquid Blister, never failing in a single instance. It is the best blister ever used at Woodburn."

S. A. BROWN & CO., Kalamazoo, Mich., writes: "With Dr. Hagyard's Liquid Blister we have reduced to normal condition some badly enlarged tendons; also cured several curbs and splints with it."

CRIT DAVIS, Harrodsburg, Ky., who gave records to Prince Wilkes, 2:14¾; Bonnie Wilmore, 2:14¾; Phil Thompson, 2:16¼; Maud Messenger, 2:16½, and many other good ones, writes: "I have used Dr. Hagyard's Liquid Blister on several trotters for different purposes, and am highly pleased with results in every case. I pronounce it great."

Z. E. SIMMONS, Lexington, Ky., writes: "I had been treating a horse with enlarged tendon for some time, using numbers of remedies advertised as a cure, without success. I applied Dr. Hagyard's Liquid Blister, and in one month the tendon was sound as a dollar, no enlargement whatever. Also applied it once to a filly with enlarged hock, reducing it to a normal condition in a very short time."

Also have a number of high testimonials from the leading breeders in the land.

# HOOFICURE

A HOMELY NAME THAT PLAINLY INDICATES ITS VIRTUE

Is the result of long and careful experimenting with a remarkably fine quality of clay, of wonderful healing qualities, which as carefully prepared and placed on the market by us in a powdered form, will absorb one and one-half times its own weight in water when thoroughly mixed, and still be in solid form. It retains the moisture an incredibly long time, relieves pain, subdues fever; in fact, makes it possible to supply in the stable that sovereign relief which nature provides for the horse at pasture, making it the best hoof packing on the market to-day.

## CLAY IS NATURE'S REMEDY FOR A DISEASED HOOF.

All that we ask is that you will try a FREE sample package, follow instructions carefully, and you will be convinced that Hooficure is all we claim for it.

*Testimonial from Mr. C. H. Nelson, owner of the great stallion "Nelson."*

MITCHELL CHEMICAL CO.

Gentlemen: The hoof packing called Hooficure is all you claim for it. We use it to pack Nelson's feet and the balance of my horses, and find that it fills the bill; nice to handle and easy to prepare.

Yours truly, C. H. NELSON.

WATTERVILLE, ME.

*Especially Adapted for Nail Punctures.*

Chicago, Ill., Nov. 11, 1891.

MITCHELL CHEMICAL CO.

Gents: Am using your Hooficure. It is the best remedy ever used for fever and brittle hoofs *and especially for healing wounds from nails.* Can cheerfully recommend it to every horseman. C. A. SKELTON,

Veterinary for F. Parmelee Omnibus Stable.

SEND FOR FREE SAMPLE TO G. S. ELLIS & SON.

Chicago, Nov. 10, 1891.

MITCHELL CHEMICAL CO., Mitchell, S. D.

Gentlemen: Allow me to speak a word of praise regarding the merits of your "Hooficure." It is decidedly the very best thing I ever saw for packing horses' feet, and in case of feverish and swollen tendons, produced by long drives, I have found it on taking out the fever and swelling of the tendons in three nights.

Very respectfully yours,

LESTER S. HILLS.

Special Agt. Thomson, Houston Electric Co.

Detroit, Mich., Dec. 14, 1891.

MITCHELL CHEMICAL CO., Mitchell, S. D.

Gentlemen: Having given the Hooficure a thorough practical test, I am prepared to give it my *highest* endorsement, and am free to say that it far supercedes anything in the line of hoof-packing that has ever come before me. Very truly yours,

P. M. CAMPBELL,

Sec'y Detroit Driving Club.

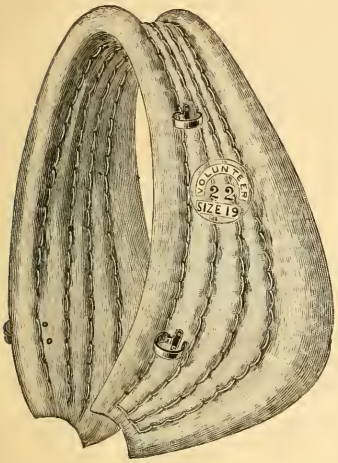
# SWEAT · COLLARS

Sold by G. S. ELLIS & SON.

VOLUNTEER 22.



**MIDLAND.** The "Midland" is made with brown or black drill face and white drill back. These pads overcome any and all objections that can possibly be raised against an all-white or an all colored pad, the white drill being against the horse's shoulder, always presenting a nice clean appearance. The Midland goods are by far the most sightly ever offered to the trade, and have proven enormous sellers. Having been the first to introduce the Midland (brown drill face), therefore we lead in this line of goods, and as one new thing calls for another, we add the various colors above, making a line to suit the most fastidious. These goods are stuffed with prepared goat hair by process of new machinery. All goods guaranteed satisfactory, as each pad is carefully inspected by a competent foreman before being placed on the market.

**CINCINNATI.** "Cincinnati 22" is made of white drill well stuffed with good stock) has three hooks) and is an excellent seller.

**CLIMAX.** "Climax" is made of a good quality drill mixed of good stock of hair, has three hooks, and is a good Pad where a cheap drill is desired.

**HARD CASH.** "Hard Cash" is a well stuffed, three-hook sheeting. Where a cheap Pad is desired, we would recommend this pad.

**VOLUNTEER 22** Is made of the best white drill, stuffed with deer and goat hair, properly mixed by process of new machinery, taking out all bones, pieces of hide and all other foreign substances. Has three elastic steel hooks, as shown in the cut above, is thoroughly made throughout, and is the *greatest seller* on the market.

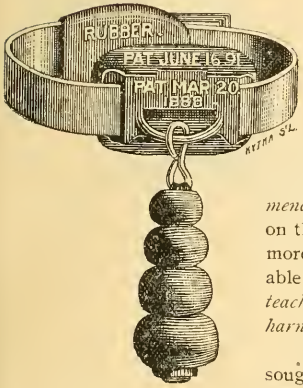
# HAUGHEY'S Original Pendant Improved

# Interfering Device for Horses.



In offering this Boot to the trade and public, I do so with a full knowledge of its great merit in preventing and breaking horses of the habit of interfering. And to show that I know what my position is, *I offer* $5.00 to the *owner* of any *horse* that will *interfere with a pair of my Boots* on. They cost but $2.00 per pair, and if a failure you get your money back and over two hundred per cent. additional.

These Boots are well known, and where that is the case they *recommend themselves.* They are *spreaders* not *trippers,* as they *swing loosely* on the *horse's* legs, ever reminding him to travel wide; and after two or more weeks you may be able to dispense with them. They are adjustable to right or left leg. *They are indispensable in breaking young horses, teaching them to travel wide at the time that it is most necessary—when first harnessed.*

By reason of the great benefits of this device, a number of infringers sought to share the profits with me; all of them have been prosecuted. *The latest one, Leopold Meyer,* of St. Louis, *who sold* the goods, was defended by The Crane-Calhoone-Barnet Co., of Newark, New Jersey, who had made the *infringing Boots. The court granted a perpetual injunction against the wrong-doers,* with costs, damages, and disbursements to be recovered. To avoid trouble see that the plates bear the patent date. All others are dangerous infringements. Honest dealers will handle honest goods. Sold at retail $2.00 per pair.

# BLUE BLOOD

To Breed to BLUE BLOOD.

# UIHLEIN BROS. STOCK FARM,

55 Miles from Chicago, on the Milwaukee & St. Paul R.R., TRUESDELL, WIS.

HOME OF THE

## PREMIER ALCAZAR 2:20¼.

**Sire of 5 in the 2:30 list, and 3 of them but 2 years old, and he but eight years old. The greatest showing of colt Trotters by any sire of his age.** He will be limited for the season of 1892 to 20 approved mares at $400. He has proven himself a sure foal getter, a sire of extreme speed at an early age, and where is there one, not bred identically like him, anything like his equal in breeding? Alcazar was a game race horse, his sire, Sultan 2:24 (with 29 in the list and 6 daughters that have produced speed, including Regal Wilkes 2:17½ at 3 years) was a race horse. As a producer, where is the equal of Alcazar's dam Minnehaha? She is not only the dam of 5 better than 2:30 but is the dam of Beautiful Bells, that has Produced 6 from 2:19¼ to 2:26½, and the oldest but 4 years old, with the great yearling, Bell Bird 2:26½.

## ALENCON 2:28¼ 9342.

By Lord Russell (brother to Maud S. 2:8¾ and Russia 2:28), sire of 10 in 2:30; 1st dam Alice West 2:26 (dam of Altamura 2:30 at 3 years), by Almont 33, sire of 34 in the list. Lord Russell, sire of Allencon 2:28¼, has been paid the highest of honors by being placed at the head of the great Woodburn stud. The blood of Miss Russell is breeding on to such an extent it is needless for us to say more of Alencon. Service fee, $100 the season.

## MARVIN 2:28¼ 11359.

By Electioneer (sire of Arion 2:10¼ at 2 years); 1st dam Bright Eyes (sister to Prussian Boy 2:26½), by Gen. Benton (sire of the dam of Sunol 2:08¼); 2d dam Prussian Maid 1:19¼, by Signal. For the blood of Electioneer (with 100 in the list) it will be hard to find better than Marvin. $100 the season.

## SULTONIAN 17631.

By Sultan 2:24 (sire of Stamboul 2:11, Alcazar 2:20¼ and 27 others in the list and sire of 6 producing daughters); 1st dam Linnie (2:25 at 3 years), by Egbert (sire of 45 in 2:30 list), one of Hambletonian's best producing sons. Sultonian is worthy the attention of any breeder, and will be allowed to serve a few first-class mares at $100 the season.

## MANIPULATOR 9341.

By Nutwood 2:18¾, the greatest living sire of trotters (77 better than 2:30, 17 in 2:20 and the dam of Arion 2:10¾ at 2 years); 1st dam Gladyo (dam of Chiquirita 2:27½ at 3 years, and Manipulator 2:37 at 4 years), by Hetzel's Hambletonian (full brother to Volunteer 55); 2d dam Jule B. (dam of Woodford Pilot 2:23½ and sire of 2 in the list), by Woodford Mambrino 2:21 (with 12 in 2:30); 3d dam Bruno (gr. dam of Romance 2:29½ and Farce 2:29¼), by Pilot Jr., sire of 9 in 2:30. The sons and daughters of Nutwood are producing on second to none. Manipulator is an individual none can fail to appreciate, and the breeder has only to trace his antecedents. $50 the season.

## GOGEBIC 2:42. 8556.

By Red Wilkes (65 in the list, and whose reputation as a sire is known to all); 1st dam by Brown Dick; 2d dam Kate Smith (dam of Jonn R. 2:23), by Spauldings Abdallah. $50 the season.

## KING PIEDMONT 10983.

Is another none can deny is gilt-edged. By Piedmont 2:17¼ (9 in 2:30 list), by Almont 33 (34 in 2:30 list); 1st dam Daisy D. (dam of Del Paso 2:21½), by Electioneer (100 in 2:30 list); 2d dam Daisy C. (dam of Millard 2:23), by The Moor; 3d dam Gray Dale (dam of Longworth 2:19 at 4 years). It was from Beautiful Bells by The Moor that Electioneer made his greatest reputation as a sire of trotters, and King Piedmont with another cross to Mambrino Chief must raise the quality. $50 the season.

## ELECTRIFICATION 10982.

By Electricity 2:17½, one of Electioneer's fastest and best-bred sons; his dam Midnight was also dam of Jay-Eye-See 2:10 and Noontide 2:20¼. Electrification's 1st dam was Cecilia, by Del Sur 2:24 (sire of 3 in 2:30 list; 2d dam Cecilia by Clark Chief 89 (sire of 6 in 2:30 list). It would be folly to think Electrification will not breed on. $50 the season.

## STEWART, 10219.

By Pilot Medium (sire of Jack 2:12¼ and 28 others in 2:30 list); 1st dam Mercedus (dam of Medomias 2:30), by Masterlode (sire of 24 in 2:30 list). We look forward to Stewart being one of our most valuable sires. $50 the season.

## TREVOR, 10222.

By Gogebic 8556, by Red Wilkes; 1st dam Rose Shipman 2:23 (trial 2:16), by Blue Bull; 2d dam Beckey Smith, by Tom Hal 3000. Trevor is a fast, straight-going pacer, and to the many who like a pacing cross, we would ask where they can get it with the blood lines equal to Trevor. $25 the season

## HALSEY, 10225.

By the grand young horse All So 2:20¼ at 5 years, 1st dam Sannie C. 2:27, by Almont 33. All So was by Blackwood Jr. 2:22, out of So So 2:17½, the fastest daughter of Geo. Wilkes and the greatest 2-year old in her day. It will be seen that Halsey in speed in blood lines ranks with the best. $25 the season.

## INCREASE, 9405.

By Mambrino Patchen 58; 1st dam Little Gypsey, by Nomad; 2d dam Ina Lee, by Conductor. Will be allowed to serve 5 mares at $25 the season.

## WERTHEIME, 9343.

By Allandorf 7462, by Onward, out of the great dam Alma Mater (dam of 5 in 2:30 list); 1st dam of Wertheime was Little Gypsey, by Nomad 2:27; son of Almont 33, a sire of trotters and producers of trotters. Allandorf showed up well last year through his pacing son, Strong Boy 2:12, and that he will be a worthy representative of his great sire and dam none can doubt. No horse of equal breeding of Wertheime was ever offered to the public at the low price of service we have placed him. $25 the season. Limited to 5 public mares.

## MARCANO.

By Alencon 2:28¼; 1st dam Clara B., by Swigert (32 in 2:30 list); 2d dam by Volunteer 55 (29 in 2:30 list). Swigert (sire of the dam of Marcano), sire of 32 performers, is also sire of 11 sires and 7 dams of 2:30 performers. A wonderful showing, and when mated with the rich blood of Lord Russell through Alencon, stamps Marcano born in the purple. $25 the season. Limited to 5 public mares.

In offering the services of our stallions to the public, we feel perfect confidence in claiming we can please the most fastidious breeder, and invite all to personally inspect the individuals. Free return privilege in 1893, if mare proves not in foal, will be allowed to all the above. Young stock from producers on both sides for sale at reasonable prices.
